RACE MEET PLANNED AT TANFORAN RACE TRACK

Breeders' Association Announces 13-Day Racing Meet Following Court Decision Here

Following an apparent victory in the court of Judge Maurice T. Dooling, sitting for Judge George H. Buck here last week, when three men arrested for alleged violation of the state's anti-betting laws were released for lack of evidence, the Pacific Coast Breeders' Association this week announced a 13-day racing meet at Tanforan track to open on April 5.

In making the announcement of the forthcoming event Dr. C. E. Jones, secretary of the association issued a lengthy statement setting forth the position of his organization. He said in part:

"The Pacific Coast Breeders' Association will proceed to work out its pretentious program with the co-operation of the leading sportsmen of the state and the business men of San Francisco. It will oppose to the fullest of its powers the coming into the state of professional promoters or undesirables of any character.

"We have had a most cordial reaction from the business men of the coast area. Over 250 of them have signed an agreement to associate themselves later into a corporation to be known as the California Business Men's Racing Association. This corporation will probably be a million dollar concern and when organized we will turn the Tanforan property over to it as a holding company and continue as an operating company as we organized not for profit. These merchants do not care whether the racing makes money or not.

"They believe that twenty-five days of racing in the late fall will bring great numbers of wealthy sportsmen who now go to Florida. These people will be a wonderful stimulus to Christmas shopping, as experience has shown that people buy their presents in the city where they happen to be. A short spring meeting, also, will draw and hold many tourists of the better class.

"Judge Joseph A. Murphy has consented to direct the meeting for us. We have instructed him to secure a staff of officials of unblemished reputation and permit, on the track, only horsemen and jockeys who are on the honor role of all reputable tracks. We have impressed on him that ours is a sporting proposition pure and simple. We wish to demonstrate that we can conduct racing on as high a plane as any other sport, that we can attract the best class of people and maintain as perfect order as at any other public gathering and that we can reproduce the colorful scenes of Saratoga, Belmont Park, Arlington and other fashionable tracks of the world.

"It shall be our purpose also to conflict as little as possible with baseball, football and other sporting events and work in harmony with all racing organizations.

Following the announcement of the race plans, District Attorney Swart and Sheriff James J. McGrath reported that their representatives would be present to watch the conduct of the races, and if possible, secure evidence of violation. Evidence could not be adduced at the trial of the men arrested at a test race run some weeks ago to show that the purchase of options as proposed by the association is a violation of the anti-betting laws. In giving a verdict to the defendants last week Judge Dooling made it clear that he was not sanctioning the option plan. He stated that he was not setting a precedent, but was dismissing the men because of lack of evidence in that particular case.

"ANDY" STEWART LEADS LINCOLN PIONEERS CLUB

The Lincoln Pioneer Club, one of the 12 to 15 year old clubs in Redwood City, under the program of the Young Men's Christian Association, are very much pleased to announce that they have secured as their leader, Andrew Stewart.

This club is holding its meetings at the Methodist church on Saturday afternoons, at 1 o'clock.

This club is the first club to be set up which limits its membership to those who graduate from the Friendly Indian program. Two of the members of this group have been recommended for the highest honor under the Pioneer program. These boys will receive the award in the near future.

Woman Held Guilty Of Disturbing Peace

A jury after hearing testimony in the Redwood City police court with Judge Percy Jackson presiding, on Wednesday found Mrs. S. Cameron guilty of disturbing the peace. The charge was brought by her son-in-law, F. W. Hunt.

Mrs. Cameron it was claimed, had come here from Los Angeles to testify against against Hunt in a divorce suit brought by his wife. The divorce was denied by the superior court here, but following the action Mrs. Cameron continued to live at Hunt's home.

Mrs. Cameron was defended by Attorney Carl Anderson of Burlingame. The prosecution was handled by City Attorney Mansfield.

Gas Pump Wrecked By Stray Bullet

Joseph Basso, proprietor of the Newbridge Service Station, complained to Sheriff J. J. McGrath on Wednesday, that someone during the night had fired a shot through the glass container of his filling pump. The act is thought to have been a part in the "gas war" which is again agitating service station owners of the county. During a similar gas war, last year, a number of like acts of vandalism were committed.

Meeting Called Here For County Census Workers

Census Supervisor To Exlain Plans To Enumerators

A meeting has been called by Dr. W. C. Bailey of San Jose, supervisor of the census for the 10th district, including the counties of San Mateo, Santa Clara, San Benito, Santa Cruz and Monterey. This meeting will be held at the city hall here on the evening of Thursday, March 27, at 9 o'clock. It is to be a meeting of all census enumerators of this county to make plans for the census which is ta start on April 2.

As it is to the advantage of the city, the county and the state to have the census as complete as possible, Dr. Bailey has invited the members of the chamber of commerce, city council, or any other organization or individuals interested in the taking of the census.

"The United States Census, which will be taken starting April 2nd and finishing in two weeks in cities and in 30 days in unincorporated and rural sections, is of the utmost importance to every community. By this census return we will be judged for the next ten years.

"The enumerators for this work will be local people and they will be paid by the person and by the schedule. It is a big job there are 32 questions on the Population Schedule and 232 on the Farm Schedule and these enumerators need all the help we can give them. It is our chance to do a good job and make a lot of friends. This is how:

"I am arranging to have preliminary sample population lists printed and we want to get one of these into every family and to every individual about March 31st, so that when the enumerator calls in April the information will be ready for him. He won't have to call again and again—anyone in the household can give the information for the family, or a neighbor, if necessary. Everyone is taken at his usual place of abode—where he lives.

"In San Mateo county at the last census there were 9052 families."

Recital Planned At Woman's Club

Mrs. Jean Douglass Forsyth, with Mrs. Velma Van Duyn and Miss Helen Maloney as assisting artists, will present a recital of song at the Redwood City Woman's Club house, on Clinton street, this (Friday) evening at 8:15 o'clock. The affair will be a benefit for the Order of Rainbow Girls. The admission will be 50 cents.

The program follows:

Lover in Damascus..Amy W. Finden
Far, far across the desert sands
Where the Abana flows,
If in the great Bazaars
Allah be with us.

LECTURE ON CHRISTIAN SCIENCE TUESDAY EVENING

A free lecture on Christian Science, entitled "Christian Science: The Religion of Fullfillment" will be delivered next Tuesday evening, March 25, 1930, in the Burlingame High School auditorium at eight o'clock.

This lecture is given under the auspices of First Church of Christ, Scientist, in Burlingame. The lecturer, Judge Samuel W. Greene, C. S. B., of Chicago, Illinois, is a member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston Massachusetts.

The public is cordially invited to attend.

Be Sure You Are Counted in the 1930 Census

The official standing of your community will be established for ten years by the federal census which will start April 2. The official population of your city, county, state will not be changed until 1940. Help your community attain its rightful standing by making sure that you are enumerated.

Twelve days from today enumerators will go in to the field and start taking the fifteenth decennial census of the United States.

Within two weeks after that date the census count in all of the chief cities is expected to be completed. Within 30 days the records of all persons in the outside districts are expected to be completed.

It is vital to every city, every community, every county and state to have every individual in it listed in that census. Directly and indirectly it is vital to every individual to be properly enumerated in the census.

Co-operation Needed

Complete enumeration can only be obtained through co-operation of the individuals and when these individuals appreciate the difficulties and the scope and the importance of the census, their co-operation will be forthcoming immediately.

Such is the belief if Dr. W. C. Bailey, supervisor of the tenth census district whose headquarters are in the San Jose city hall

The district comprises the counties of San Mateo, Santa Clara, Santa Cruz, San Benito and Monterey. In these five counties it is estimated that there are 52,622 homes, each of which must be visited by a census bureau enumerator.

These homes are distributed by counties in the district approximately as follows: San Mateo, 9052 Santa Clara, 26,001; Santa Cruz, 7880; San Benito, 2376; Monterey, 7313.

Questions Numerous.

For every individual in each one of these 52,622 homes, the census enumerator must fill out a list of 62 questions on the population schedule. In addition there are special schedules, 35 in all, one of which must be filled out for each special classification which arises.

The number of questions on these special schedules varies. One of them, the general farm schedule, contains 232 questions. Supplementary to this in all counties of California and certain counties in four other states, is a special fruit and nut schedule containing 26 additional questions.

In order to carry out the work Dr. Bailey will have 275 enumerators in the field, of which about 100 will be engaged in Santa Clara county and 36 in the city of San Jase.

All Passed Exams.

Each of these 275 enumerators made application to the department of commerce, bureau of the census, for his or her position; passed an examination, filled out test census schedules and received a percentage grading. Upon these percentages the appointments are being made. In addition to knowing the various schedules, each enumerator must know the contents of a rule book of 150 sections.

The enumerators are paid so much a name. They receive no additional pay when they are forced to return to a house two, three or more times to secure the necessary information. If they spend an hour filling out the schedule in a home they receive no more pay than if they had completed the task in 15 minutes.

All Must Help 0

Every resident can help himself, his city, county, state and the nation by assisting these enumerators in every way possible.

Persons who know they are not going to be at home at the time the census is taken are urged to call, or write to the census bureau, City Hall, San Jose, for schedules which they may fill out and return by franced envelope to the bureau.

Persons who are going to be home can greatly assist by having the information required ready.

Attacker Sane Is Judgment Of Court Here

Walter Zwick, one of the two men who committed a brutal attack upon a 19-year-old San Francisco girl, near Daly City, on February'9, was declared to be sane in the superior court here, on Wednesday. Zwick admitted his guilt, but at the same time pleaded insanity.

Zwick was examined and declared sane by Dr. Catton, noted phychiatrist who told the court that Zwick, while he had the mentality of a boy of 9 years, and was a mental defetcive, was sane, and knew what he was doing. He added that he was of a type which could easily be lead into trouble by evil companionship.

The defense attorney was Jerome McDonald. He made a capable argument for his client. But as Zwick has already admitted his guilt by his plea of insanity, the testimony of the physician leaves nothing to the court but rended sentence. This will be done tomorrow morning.

Associated with Zwick in his crime was Fred Pepe. Pepe entered a plea of guilty and was sentenced last week to a term of from 1 to 50 years in San Quentin.

This was McDonald's first case. He demonstrated his ability as a lawyer. He showed aggressiveness and tact. McDonald's five minute speech to the jury was clever, bringing out his power of capacity as an advocate. We predict a good future for the young attorney in his chosen profession.

Kiwanis Club Hears Report on Efficiency

Charles G. Lambert, past-president of the Redwood City Kiwanis club, was the main speaker at the regular meeting of the club Wednesday. He read the efficiency report which is submitted annually by each club to the Kiwanis International. The report of the local club had been prepared by the secretary, J. D. Hedge, and last year's secretary, Sam Winklebleck. It outlined all the activities which the club has sponsored during the past year.

The chairman of the meeting was Dr. Herbert Clattenburg. John Layng gave the five minute talk. An interesting feature of the meeting was a short talk by Miss Julianne Wolters, a member of the faculty of the Sequoia Union High School. Miss Wolters is in charge of the student loan fund at the school, to which the Kiwanis club has contributed from time to time. She told of some of the uses to which the money so contributed has been put.

Dr. E. Ghidella Called by Death

Eminent Surgeon Was Patriot Of Italy

Funeral services were held yesterday morning from the parlors of the James Crowe Undertaking Co. for Dr. Edward J. Ghidella, San Francisco surgeon residing on Eaton avenue in this city. Dr. Ghidella died Tuesday at his home. The services were conducted by the Rev. D. B. Weigle, pastor of St. Peter's Episcopal church, and were followed by interment in Cypress Lawn cemetery.

Dr. Ghidella was a native of Italy and was 49 years of age. He had for many years been rated as one of the finest surgeons of San Francisco. At the opening of the World War he left his lucrative practice to return to his country and served in the Italian army on the Austrian front. For his services during the war he received decorations for distinguished bravery.

Dr. Ghidella is survived by his widow, Mrs. Clelia F. Ghidella, a son, Renato N. Ghidella, and a sister, Mrs. Florence Bologmino of New York.

LOCAL VOLLEYBALL TEAM LOSES IN CALIFORNIAD

The men's volleyball team, representing the peninsula, went into San Francisco on Saturday evening and played in the Californiad, at the Golden Gate Y. M. C. A., against the Central Y. M. C. A. Volleyball team.

Considering the fact that the Central Y. M. C. A. team had four men on it from the 1926 National Championship team, the Redwood men feel very much elated over their showing. The local team took one game out of four fifteen point games.

In the first game the Central team won 15 to 7, in the second the Redwood City men won 15 to 9, in the third and fourth the Centrals won 15 to 6 and 15 to 10.

The Central team were playing on their home court, which was much longer than the local courts, and had considerable apparatus strung up which bothered the local men in their serving. The splendid passing of the Central men, as well as their ability to "kill", spelled defeat for the locals.

Speed

(EDITORIAL)

There is an average of one automobile for every family in the United States. Think of it! Over twenty-four odd millions of them!

From a mere new-fangled idea they progressed to a luxury class, and from a luxury to NECESSITY. In some sections of the country the local average of two automobiles to every family, and the market unquestionably is increasing all the time.

We are moving faster and faster all the time—10, 20, 30, 40, 50, 60, 100 miles an hour. But in pleasure, utility and service, and increased earning power the automobile is more than paying for itself. They have changed our entire mode of living, and the entire economic structure of the country. The change has been for the better.

We are living faster, but we're enjoying ourselves more, and we've certainly got to hand it to the durn things. We've got to admit that "four wheels and a motor" have certainly added zest to life and living in this wonderful county of San Mateo.

Work Begins On Bayshore Road Filling

Dredger Begins Work On Road Fill At Belmont

A crew of workmen is busy this week at Belmont starting dredging operations on the three mile fill, which will carry the Bayshore highway between Belmont and Redwood City. This is the first step in the continuation of the highway from San Mateo south to this point. The dredger began on Wednesday the throwing up of a great fill from the bottom of the bay.

Just how much of the road will be filled with spoils of dredging has not been decided, but, accorling to operation executives, at least two miles will be constructed.

To supply the spoils the dredge will cut some 12 feet from the bottom of the basin, where it is proposed eventually to construct a turning basin 40 feet deep, they explained.

A 30 inch pipe line will carry the material taken from the channel to the highway, something more than a mile away.

While the present contract is said to deal with the highway fill only, the project involves completion of an 18,000-foot channel to deep water, the turn basin, 14 slips and the filling of 900 acres of land. The land has already been dyked by clam shell dredges.

At the same time that work was being started on the extension of the Bayshore road from San Mateo south to this city San Francisco supervisors were considering the building of a cross-city artery to carry the heavy traffic which the Bayshore is taking to San Francisco.

City Engineer M. M. O'Shaughnessy told San Francisco supervisors that the widening of Army street into a cross-town lateral should be undertaken under a "unit plan." The projected widening of this street would require four years, he stated.

It will cost approximately one million dollars to make the artery 100 feet wide from the Bayshore highway to Valencia street, said the engineer.

He recommended that the board set aside $250,000 each year from state funds received by San Francisco from the gas tax and auto registration receipts.

The project, when completed, will provide a heavy traffic artery stretching from the bay to the ocean beach and will cross all the city's new peninsula highways, the city engineer said.

Local Ball Season To Open Sunday

Redwood City's baseball season, delayed for two weeks on account of weather conditions and wet grounds, will be ushered in next Sunday with two games played on the Sequoia high school diamond. In the morning the Eagles and the Firemen will clash and in the afternoon the Y. M. I. and the Native Sons will vie with each other.

Games will be played each Sunday morning and afternoon until May. The four teams have exceptionally strong lineups and some spirited contests are assured the fans during the season. Seats have been provided on the grounds for several hundred persons.

The morning games will start at

REDISTRICTING HEARING OCCUPIES COURT ALL DAY

Injunction Petitions Submitted to Judge Following Extended Hearing

The superior court on Tuesday devoted practically all day to the hearing of the injunction suits of Dante Dianda and Horace Nelson, coast side residents seeking to enjoin the board of supervisors from calling a special election for redistricting the county into supervisorial districts.

The hearing was before Judge J. R. Welch of Santa Clara county, Judge Buck of this county having disqualified himself from sitting in the matter. The two petitioners for injunctions were represented by Attorney J. E. McCurdy and Attorney David Cosgrave. The redistricting faction was represented by Attorneys Charles N. Kirkbridge, Ernest Wilson and John F. Davis.

The petitions for an injunction to restrain the board of supervisors from calling the special election were filed several months ago after proponents of the redistricting measure had filed an initiative petition to compel the board to call the election.

The hearing Tuesday was another step in the long controversy which has been waged between those seeking a re-division of the county, and those opposing it.

Twice the proponents of a re-division of the county have met with defeat once when a mandamus action was sought to compel the board to divide the county on a more equal basis the second time when the joint judiciary committee of the state legislature tabled assembly bill 1080, which had been sponsored by the Burlingame chamber of commerce, and which would have resulted in the division sought by the present initiative. This bill was tabled as being of only local importance and it was suggested that the initiative be invoked to remedy the situation.

The resolution as passed by the Burlingame city council reads as follows:

"Whereas, we believe that great inequality of governmental representation of county affairs, exists in the county of San Mateo, in adhering to the antiquated plan of the supervisorial districts now existing, and which plan is an abuse of a republican form of government, and

"Whereas, we believe that this abuse should be corrected, if the rights of the electors of the county of San Mateo are to be counted for anything.

"Now therefore, be it resolved by the city council of the city of Burlingame that the requests of our citizens for this council to endorse the movement to invoke the initiative to bring about the results of an equitable redistricting of the supervisorial districts of the county of San Mateo be granted, and that this council does now endorse such a movement by our citizens of the county, pledging our support in their effort to bring about a successful conclusion."

Toward the close of the morning session when City Attorney J. E. McCurdy of San Mateo, cousel for Nelson, had County Surveyor George A. Kneese on the stand questioning him about the areas of the new districts as proposed in the petition, Judge Welch stated that the issue was not a matter of representation according to area, but according to population.

Oppose Kneese Testimony

The entire testimony of Kneese was objected to by the attorneys for George W. Williams of Burlingame, intervenor in the suits of Dianda and Nelson, as not pertaining to the issue.

The attitude of the board of supervisors toward the redistricting petition now on file with it, was brought out when Attorney McCurdy called Dr. C. V. Thompson of Pescadero, chairman of the board of supervisors for questioning.

Judge Welch asked Dr. Thompson whether the board favored the redistricting petition in its present form.

Dr. Thompson replied that it "did not."

Asked how he knew that attitude of the board, and whether he had discussed the case with other members, the chairman replied "he had—with two others," and they did not favor relocation of boundaries.

At this point Attorneys Charles N. Kirkbride and Ernest Wilson, representing Williams, and City Attorney John F. Davis of Burlingame, arose and demanded that Dr. Thompson reveal the names of the other supervisors opposed.

Judge Welch stated that Thompson could answer the question if he wanted to.

The chairman declined, however, stating he; "did not believe that was a public matter." Thompson gave as his personal reason for opposing the petition that he had discussed it around the county, and had come to the conclusion that it was "not a county issue."

Attorney David Cosgrave, counsel for Dianda, moved for a judgment from the bench at the conclusion of his statement in behalf of the coast side man.

District Attorney Franklin Swart, asked by Judge Welch as to the county's stand, said, "The supervisors are divided among themselves as to redistricting, but the county will abide by what the court finds is law."

McCurdy asked that Nelson's suit be tried separtely, but stated he was agreeable to Judge Welch's decision being applicable to Dianda's suit. This was agreed upon.

In his opening statement, Attorney Cosgrave said that the county cannot be redistricted by petition, and that a special election would be costly and in violation of Section 4029 of the political code, which allows the board to take the matter up.

Attorney Kirkbride, in his statement in behalf of Williams' petitions in intervention said that the matter of dividing up the county is "purely initiative," and pointed out the weaknesses of the present representation based on population.

Surveyor Kneese was sworn, and Attorney McCurdy introduced maps of the county in its present status and how it would be divided if redistricting took place.

Kneese testified that the county comprises 507 square miles, and that if the boundaries of the Fifth township were changed according to the petition, that district alone would cover approximately 68 per cent or 345.54 square miles of the total. Fifty-seven square miles would be in the Fourt township, Kneese said.

The matter was finally submitted before Judge Welch.

The county is at present divided into five supervisorial districts, two of which are on the coastside and three on the bay side of the county. This arangement was made early in the history of the county and has been changed little since that time. From time to time slight changes have been made, the last being on April 1, 1901.

The fact that the bay side of the county has experienced a growth out of all proportion to that of the coastside has made the representation on the board of supervisors quite unequal, as it takes about twenty times as many people to elect three supervisors here as it takes to elect two from the coast. For this reason the residents of this side of the county have for years sought an adjustment.

However, to secure action by the

Have Kidneys Examined By Your Doctor

Take Salts to Wash Kidneys If Back Pains You or Bladder Bothers

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive, cannot injure and makes a delightful effervescent lithia-water drink.

Kisses at Altar Ordered

One of the most popular clergymen in Belfast, Ireland, is Rev. John McCaffery, since his recent announcement that after a marriage ceremony performed in his church the bride and groom must kiss at the altar. "It is a good way to start married life," said the priest. "It is becoming that the ceremony should be sealed in this way, and invariably the couples carry it out with enthusiasm."

Use Russ Ball Blue in your laundry. Tiny rust spots may come from inferior Bluing. Ask Grocers.—Adv.

Restricted

"Is this a restricted suburb?"

"Yeh, you gotta go down cellar to swear."

Don't neglect a COLD

DISTRESSING cold in chest or throat—that so often leads to something serious—generally responds to good old Musterole with the first application. Should be more effective if used *once every hour for five hours.*

Working like the trained hands of a masseur, this famous blend of oil of mustard, camphor, menthol and other helpful ingredients brings relief naturally. It penetrates and stimulates blood circulation, helps to draw out infection and pain. Used by millions for 20 years. Recommended by doctors and nurses.

Keep Musterole handy—jars and tubes.

To Mothers—Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

MUSTEROLE
BETTER THAN A MUSTARD PLASTER

An Even Exchange

"I have a system for beating the races," said the confidential stranger.

"All right, I'll trade you my method of positively forecasting elections for it."

Does a boy want a Shetland pony or a motorcycle?

Makes Life Sweeter

Children's stomachs sour, and need an anti-acid. Keep their systems sweet with Phillips Milk of Magnesia!

When tongue or breath tells of acid condition—correct it with a spoonful of Phillips. Most men and women have been comforted by this universal sweetener—more mothers should invoke its aid for their children. It is a pleasant thing to take, yet neutralizes more acid than the harsher things too often employed for the purpose. No household should be without it.

Phillips is the genuine, prescriptional product physicians endorse for general use; the name is important. "Milk of Magnesia" has been the U. S. registered trade mark of the Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.

CALIFORNIA NEWS REVIEW

Ventura County Fair directors set the date for this year's exposition for October 1 to 5, inclusive. It had at first been suggested that the fair be held early in the summer.

A new 50 room hotel, to cost approximately $50,000, is to be built at California Hot Springs, famous health resort located about 35 miles southeast of Porterville in the Sierra Nevada Mountains. Omer E. Lilly, hotel man of southern California, has been named manager of this resort by its owner, Mrs. Edith Williams of San Diego.

Gerald Sheehy has applied to the State Railroad Commission for authority to sell, and T. J. Horgan Company Inc. to purchase a public utility warehouse located in Watsonville.

Planting of three and one-half miles of scarlet Hawthorne trees from the Santa Rosa city limits south to Bellevue on the Redwood highway has been completed. The tree planting program is the first of a plan to be carried out by the Highway Commission and chambers of commerce along the route.

A. T. Hatch, who has been proprietor of Hotel Wolf at Stockton for the past two years, announced the sale of the furnishings and lease to Mr. and Mrs. J. W. Ensign of Los Angeles. It is said the transaction represented a consideration of $300,000. Hatch stated he had been given the management of a $500,000 estate left by an uncle, who died recently.

California's six State mental hospitals, two homes for feeble minded and three reform schools have a combined population of 18,260 according to a report filed with Governor Young by Earl E. Jensen, State director of institutions. The records showed 14,451 in the hospitals, 2,684 in the homes and 1,125 in the reformatories.

A short section of U. S. Highway No. 99, a few hundred yards north of the Newhall Tunnel, between San Fernando and Newhall, is now undergoing construction. The road is being widened at that point, and careful driving is advised by the Touring Department of the National Automobile Club.

Production of school textbooks in the State printing plant saved the State $289,284.45 in 1929, Lyman M. King, director of the Department of Finance, has reported to Gov. C. C. Young. The number of textbooks produced during the year was the largest in the history of the printing plant, totaling 1,956,284 volumes, King reported. This exceeded the 1928 total by 324,477 volumes. King's report placed the total cost of printing and distributing the textbooks free to pupils at $312,545.66. This included actual production costs, plus the 5 per cent depreciation surcharge, the royalty, and the Board of Education's overhead of 10 per cent for distribution. It was estimated by King the cost of the books would have been $601,810.11 had the State purchased them at publishers' wholesale rates. The saving effected was 47 per cent. In 1928, the saving was 36 per cent, and in 1927 it was 42 per cnet. Two of the series of child-story readers, the primer and the first reader, cost the State 24 cents per volume for the primer and 27 cents per volume for the first reader, the report said. Had the State purchased these books instead of printing them, the price for the 174,797 primers would have been 51 cents each, while the 175,55o volumes of the first reader would have cost 54 cents each, it was declared.

Los Angeles offered to co-operate with Sacramento as the scene of the 1932 Olympic crew races in case no southern California water courses are available. The message was received by the Chamber of Commerce from William M. Garland of Los Angeles, chairman of the state Olympic games committee.

A water cooling tower 400 feet in length, 50 feet high and nineteen feet in width is being erected on the property of the Standard Oil Company at El Segundo, by the Atmospheric Cooling Company, of Maywood, this being the largest tower that has ever been contracted for on the Pacific Coast, with the local company. It will require 156,000 feet of lumber of complete it. The capacity will be 6500 gallons of water a minute. N. O. Fleming, former member of the board of trustees of Huntington Park, is vice-president of the company.

Another improved unit of the Mother Lode highway was assured when contracts were awarded Larson Brothers of Galt for grading and surfacing three miles in Calaveras County at a cost of $45,494.

Survey of traffic conditions on state roads was under way by Eugene Biscailuz, superintendent of the California highway patrol, to determine the quota of officers to be distributed on heavily traveled thoroughfares.

Stinson Aircraft Company of Chicago, is planning to establish a factory branch in California in the immediate future.

Articles of incorporation were filed with Secretary of State Frank C. Jordan by the Knight Templars Educational Foundation of California. The organization was formed for the purpose of creating and maintaining funds to be used for education of worthy persons. Directors named were William H. Waste, San Francisco, chief justice of the State Supreme Court; Robert Wankowski, Culver City; Albert E. Boynton, San Francisco; Andrew J. Copp Jr. of Los Angeles, Alfred Seale, Palo Alto; John H. Logie, Redlands, and Mattison B. Jones of Los Angeles.

Turlock will probably be selected as the place of meeting for the clerks, auditors and assessors of the Northern division of the League of Municipalities, in August.

One of California's most unique celebrations, the Jumping Frog Jubilee, immortalizing the story, "The Jumping Frog of Calveras," by Mark Twain, will again be held in Angels Camp, Calaveras County, this year. The dates are May 18 and 19, and great plans are being made by Angels Boosters' Club to make this year's jubilee a bigger and better event than ever before.

Negotiations for the purchase of the Plaza Hotel at Fresno, for more than $90,000 were completed by the H. R. Freeland Company of Los Angeles, according to Fred P. Black, owner of the property.

Protection work in the Santa Clara River, which involves jetties and channel deepening from Piru to Saticcy, a distance of 40 miles, is to start May 1. Agreements upon the work were lately effected by restoration committees of Ventura and Los Angeles counties, through both of which the river flows. The various protective works will cost approximately $400,000.

The State of California was compelled to go into court to secure right of way for realignment of the Golden State Highway near Pixley, three small parcels of land being needed and agreement with the owners not being effected. It was the first time in years the State has found it necessary to condemn. The court allowed $529,500 damages for the three small odd-shaped parcels of land.

A wildcat well in west side oil fields, being drilled by H. L. Whiston, of Bakersfield, was reported to have come in with a production of 1000 barrels a day at a depth of 5038 feet. All other wells in the district are of shallow depth and only produce 15 to 20 barrels per well.

Construction on the Union Oil Company's new pipe line from Kettleman Hills to Port Avila near San Luis Obispo was under way with the arrival of fourteen cars of pipe. The new pipe line will be used to carry high gravity oil from the Continental-Marland well to the coast.

Contract for an undergrade crossing under the Northwestern Pacific railroad tracks at Loleta, Humboldt County, on the Redwood highway, was awarded to Fred J. Maurer & Son, Eureka, for $10,880.40 by the State Division of Highways at Sacramento.

"Dog days" are in the offing for Healdsburg, following a meeting of the city council at which it was decided that two city ordinances requiring dogs to be kept off the city streets will be rigidly enforced.

Announcement was made of the plans for a new junior high school for Pittsburg, to be erected adjoining the present high school, at a cost of $136,000. Bids will be let as soon as possible, and it is expected that construction will have started by the end of April. This building is a part of a spring school building program in Pittsburg provided for in a bond issue last year, and it will be followed immediately by a new elementary school.

Public liability and property damage insurance on the sxi ton gasoline roller used by the El Cerrito street department has been ordered by the board of trustees, it has been announced by Phil A. Lee, street commissioner. A recent rampage of the roller, in which it took its driver for a wild ride down a hillside, over fields, and crashed into the front of a private home, prompted the board's action.

Although production of gold in California dropped from $11,671,018 in 1927 to $10,785,315 in 1928, the State continued to account for approximately 26 per cent of the nation's output, Fred G. Stevenot, director of natural resources, has reported to Governor Young. All of the fifty-eight counties contributed to the mineral output, he said, and there were fifty-four minerals produced, exclusive of those classed as gems. More petroleum was produced in 1928 than in the previous year, the report showed, but the value was lower, due to the low price of crude oil prevailing during the year. Production increased from 231,195,774 barrels to 231,811,465 barrels. Value decreased $30,736,818, it was shown. Production of natural gas increased from 224,686,940,000 cubic feet, worth $20,447,294, in 1927, to 260,887,116,000 cubic feet, valued at $22,260,947 in 1928, Stevenot reported.

Economic conditions in California during January were closer to normal than any other section of the United States, and in many instances, California showed a greater general prosperity than any other state, according to a survey made by the California State Chamber of Commerce. Building activity during January showed a greater progress in California than for the rest of the country and the total value of building permits issued during the month in fifty-two California cities totaled $16,874,969. This was 45.2 per cent above the December value. The total for 566 representative cities and towns in the United States for the first month of this year showed a loss of 46 per cent from January, 1929, and 17 per cent from December last year, the report states.

Authority was granted by the State Railroad Commission to Zuckerman Bros., doing business under the name of Merchants' Transportation Company, to transfer a freight boat line operating between San Francisco, Oakland, Sacramento, Stockton and intermedite points, to Weyl-Zuckerman & Co. for $12,483.93.

Two miles of living Christmas trees have been planted along the Watsonville-Santa Cruz highway, by the Watsonville American Legion Post. The trees will mark the beginning of the proposed "Twenty Miles of Living Christmas Trees" between the two cities.

Future California will have a million persons with traces of Indian blood in their veins, according to Fred A. Baker, who is investigating claims for Indian pensions against the United States government. Baker says Indian girls he has interviewed at San Jose have been pretty blondes, that situation being brought about by intermarriage between the 49-ers and Indian women in the early days.

A $50,000 hangar will be erected at Alameda airport immediately as a part of a $3,500,000 construction prgoram, it was announced by Curtiss Airports, Inc.

A delegation of Indians from the Tule River reservation, located about 20 miles southeast of Porterville in the mountains, gathered in Porterville for a "pow wow" with W. G. Walker, Indian field worker, to discuss the movement now under way to have the United States government reimburse the Indians for lands taken from them in the early days of California's settlement by the white men. The sum sought in payment for this land is $12,500,000. This would mean a per capita sum of about $625 for each of the 20,000 said to be living in this state at present.

POULTRY FACTS

COD LIVER OIL IS GREAT NEED

Found Indispensable Where Chicks Brooded Indoors.

Where chicks are raised indoors and not in direct sunshine, they need cod liver oil in the ration. The material does not cause bowel trouble as many poultrymen seem to think.

"Inflammation of the bowels and similar troubles with chicks is due to one of four causes—a virus, round worms, tape worms or chronic coccidiosis," says Dr. B. F. Kaupp, poultryman at the North Carolina State college. "Not only does our experimental evidence rule out cod liver oil as a cause of this bowel trouble, but it seems to rule out feed altogether. We have found that cod liver oil is indispensable where chicks are brooded in batteries or indoors. It produces greater resistance to disease and promotes better health. This means better growth and more eggs. To date no substitute for this material in the ration has been found."

Doctor Kaupp says that he has data on hundreds of tests made during the past 15 pears. In no case has serious bowel trouble developed where cod liver oil was used. In the tests, oil was mixed with the mash at different times. Some of it was held four to six months before the feeding experiments were completed and in no case did the records show, either clinically or in post mortem, a serious bowel trouble.

The test did show that there are too many flocks of weak constitutional vigor and high death rate. Yet when the vitamine deficiencies were supplemented with a good grade of oil and mineral supplements used along with proper proportions of protein, health with all its natural resistance to disease was built up.

Health, vigor and strength must be put into the chicks early in life by a rich, properly balanced starting mash, says Doctor Kaupp.

Poultry Raising Made Profitable to Farmer

Poultry raising should be made one of the most profitable industries on the farm. There are thousands of farms in the country today where a few fowls are kept that are given no attention whatever, aside from an occasional feed of corn and other grain, says the Southern Cultivator. They are left to shift for themselves, to eat what they can find about the yards and barn lots and to roost on fences and trees in winter and summer. And yet, their owners will tell you that by the sale of chickens and eggs from these neglected mongrel broods half the food and clothing of their families is supplied. Like soils that are never manured and half cultivated, the returns are ten-fold more than are deserved. The farmer should be a successful poultryman. He has many advantages for carrying on the business profitably that the average breeder does not possess. If he has an improved breed of fowls and the necessary accommodations in the way of houses and yards, and knows how to feed and care for his flocks, he can raise chickens at a very small cost.

Cockerels as Broilers Preferred to Capons

According to experiments conducted at the poultry department at the State College of Agriculture in New York, there is a very small margin of profit in growing capons compared to selling the cockerels as broilers. Feed seems to be the greatest item of extra cost. In some sections, relatively low feed costs and a high price for capons on account of good demand might make the business very profitable. In other localities the matter of feed, housing and labor over the period of six or eight months very often eats up the margin between the price obtainable for the broilers and the price for the capons. On the other hand capons have proved exceptionally profitable for many.

Preserve Eggs Now

Many people will remember that they had to pay from 75 cents to $1.25 a dozen for eggs last fall and winter. It will not be necessary to pay such high prices if eggs are preserved in water glass now when they are lowest in price. Whenever they can be obtained, infertile eggs should be preserved, as they keep better. For instructions, write to your state college of agriculture, county or home demonstration agent, or to the Department of Agriculture.

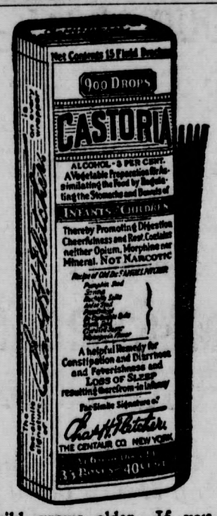
Cull Young Cockerels

It will pay to separate young cockerels from the pullets when eight to ten weeks old. This will give the pullets a chance for better development, and enable the poultryman to force the cockerels for market. Time and labor will be saved by hopper feeding the grain to the growing chicks after five weeks old. Put the grain and mash hoppers out on the range and induce a maximum of exercise. That keeps the chicks out in the sunshine, and this promotes vigor and vitality.

Money in Capons

There probably is money to be made in raising capons on a commercial scale, but not anything like the profit that would appear in the raising of a few capons as a side line to a general flock. The factors in the situation, of course, would be original cost of the capons, cost of feed, percentage of mortality and rate of growth or gains obtained. If capons are fed for a period of 40 weeks, the food intake might well be in the neighborhood of 70 pounds per bird.

Children CRY for it



It may be the little stomach; it may be the bowels are sluggish. No matter what coats a child's tongue, its a safe and sensible precaution to give a few drops of Castoria. This gentle regulation of the little system soon sets things to rights. A pure vegetable preparation that can't harm a wee infant, but brings quick comfort—even when it is colic, diarrhea, or similar disturbance.

And don't forsake Castoria as the child grows older. If you want to raise boys and girls with strong systems that will ward off constipation, stick to good old Castoria; and give nothing stronger when there's any irregularity except on the advice of a doctor. Castoria is sold in every drugstore, and the genuine always bears Chas. H. Fletcher's signature on the wrapper.

No Apology Needed

"I'm sorry I spoke sharply to that boy. I must have cut him to the quick."

"Oh, it's all right; he has no quick."

"Has no quick?"

"No. He's a messenger boy!"

Sherlock on the Job

Inspector—Got away, has he? Did you guard all the entrances?

Country Constable—Yes, but we think he must have left by one of the exits.—Co-operative News (Manchester).

Any COLD

That cold may lead to something serious, if neglected. The time to do something for it is *now*. Don't wait until it develops into bronchitis. Take two or three tablets of Bayer Aspirin as soon as you feel a cold coming on. Or as soon as possible after it starts. Bayer Aspirin will head off or relieve the aching and feverish feeling—will stop the headache. And if your throat is affected, dissolve two or three tablets in a quarter-glassful of warm water, and gargle. This quickly soothes a sore throat and reduces inflammation and infection. Read proven directions for neuralgia, for rheumatism and other aches and pains. Genuine Bayer Aspirin is harmless to the heart.

BAYER ASPIRIN

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid

Solving an Old Problem

Conjurer—Will you so kindly tell ze audience if ze rabbit is how in ze 'at?

Impromtu Assistant—Ain't you a marvel; it's disappeared! I wonder if you'd 'ave a go at a bundle of old razor blades I've got?—London Opinion.

Free speech is all right, if you don't get too free with it.

Every girl on earth dislikes being kissed—by the wrong fellow.

Mechanical Meals

With the advance in the use of canned meals, why doesn't somebody invent a multiple can opener that will open six at a time. The maid would bear them away and substitute six others and the low hum of machinery would inform the waiting guests that dinner its to be ready in a moment.—Woman's Home Companion.

Don't criticise your friends. Leave that to their enemies.

Genius is eternal patience.

Finds Youth's Fountain!

One Happy Woman Tells Where She Discovered It

"JUST one thing has contributed more than anything else in my life toward making me the radiantly happy woman I am today," writes Mrs. Walter Ruehl, of Glenbrook, Conn. "If this was selling at ten dollars a bottle instead of the few cents it costs, I would scrape the money together, and I don't mean maybe!"

"I guess a good many others feel the same way, judging by the number of people I know who swear by this 'Fountain of Youth.'"

Millions of people all over the world have discovered this simple secret, which is nothing but giving our bodies the internal lubrication that they need, as much as any machine. After you have taken Nujol for a few days, and have proved to yourself how it brightens your whole life, you will wonder how so simple a treatment can make such a great change in your health and your happiness. The reason is this:

Regularly as clock work, Nujol clears out of our bodies those poisons (we all have them) which slow us up, make us headachy, low in our minds.

Colorless and tasteless as pure water, Nujol cannot hurt you, no matter how long you take it. It is not a medicine. It contains no drugs. It forms no habit. It is non-fattening.

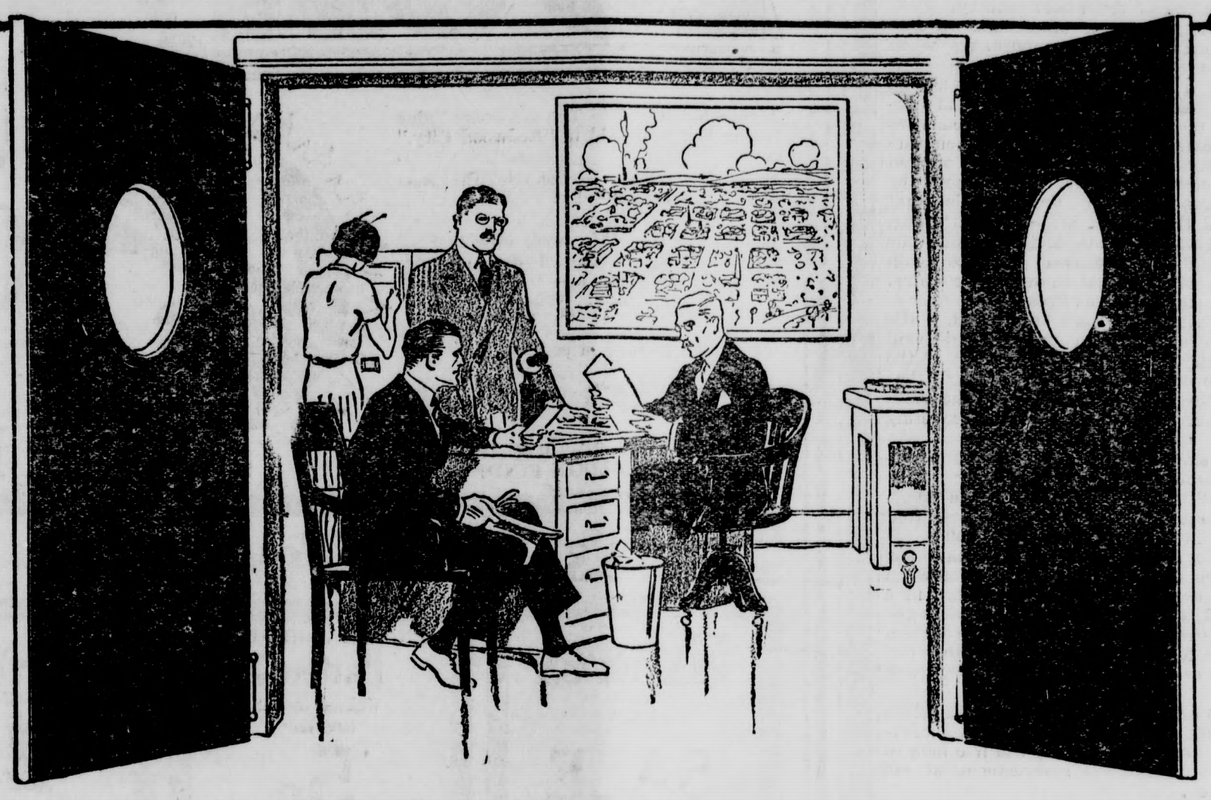
Try Nujol yourself and see how much better you feel. Get a bottle in its sealed package at any drug store and be sure it's trademarked "Nujol." It costs but a few cents—and it makes you feel like a million dollars! Start taking Nujol this very night!

Just a shake or two completes the toilet!

Always take time to dust on a little CUTICURA TALCUM as a finishing touch to your toilet. Fragrant and antiseptic, it absorbs excessive perspiration and refreshes and cools the skin, making your toilet complete. You will like it—everybody does.

Talcum 25c. Soap 25c. Ointment 25c. and 50c. Proprietors: Potter Drug & Chemical Corporation, Malden, Mass.

Civic and Commercial Clubs



Today, more than ever, communities appreciate the value of the wonderful and necessary work being accomplished by efficiently working Civic and Commercial clubs.

They represent one of the most important and intricate cog wheels in the great machinery of a STANDARD, PROGRESSIVE COMMUNITY!

Too much cannot be said of the cultural and literary influences of the various Civic clubs. No accurate measure coud ever be taken of the influence for good that is done by the Women's and Mother's clubs. A healthy, religious community is often made so largely through the influences of its Charitable and Religious organizations.

The united effort and efficient operation of these clubs help to provide the moral and mental "tone" of a community. THEY KEEP US ABREAST OF THE TIMES!

Nor do we appreciate always the value of the Commercial clubs to the business morale of our town. It is through the Commercial clubs, greatly, that communities maintain a HIGH STANDARD OF BUSINESS AND CREDIT. They furnish much of the DRIVE and the PURPOSE that unites our community for higher standards of living; growth; progress and prosperity.

THE CIVIC AND COMMERCIAL CLUBS OF OUR COMMUNITY NEED OUR LOYAL AND CONSISTENT HELP AND CO-OPERATION.

They are doing much toward the extension of our social and business area to take in the "Greater Community" that should be an integral part of US!

Let's see that the Civic and Commercial clubs of our community go forward with OUR help, in the important task of uniting us closer to our "Greater Community" in

Following One's Natural Bent, Good Thrift Example

By S. W. STRAUSS,
President American Society for Thrift

Sometime ago a survey was made of men who had been out of college for a number of years and it was found that a large percentage of them drifted from one position to another for about ten years. At the end of this period they seemed to "find themselves" and their real progress in life then began. One of those who made the survey commented as follows: "We were constantly impressed with their average low earning power in their first ten years after graduation."

It is likely that inquiry among general groups of young men would reveal the same tendency—i.e. that numbers of them waste many years before they finally settle down to the line of work for which they seem best fitted.

One of the worst forms of waste of time is to follow a profession or trade for which you are unfitted.

The writer's attention recently was called to the story of a successful lawyer who began studying law at the age of 41. He had wasted fully twenty years before he finally went into his natural profession.

Almost every young person early in life has a definite idea of the line of endeavor they wish to follow. As a rule, these aspirations are the result of natural aptitude for the work desired. Too often parental interference, financial limitations, lack of educational background or some other circumstance of life make it seem impossible for the young person to carry out his desires. In most of such cases this means a serious waste of time. Years go by before the young man or young woman finally gets around to the type of work for which nature seemed to have fitted them.

Let us remember that herein lies a great thrift lesson. What could be a more serious form of waste than to spend years in a type of employment that does not harmonize with one's ambitions? Seldom, if ever, is real progress made by those who do not love their work and love of work can spring only from a natural aptitude for the tasks being performed.

If you have a worthy ambition for some particular line of work and are spending your years in some other form of employment, you are wasting time and opportunity. There can be no complete concentration and efficiency of effort where one has no heart for one's work. The ingenuity, zest and indomitable determination necessary to great success come only to those who are performing a service which they love and for which they were created by nature.

What Are You Doing For This Community?

To the individual who wants to shirk his share of the public work of the community, one alibi is as good as another, and if he did not find one excuse workable another would be promptly invented. The citizen who really desires to assume his share of community service will find plenty of opportunity to function, and if one particular phase of community work does not appeal to him, there are dozens of other needed activities to which he is welcome to devote his energies. What a wonderful thing it would be for the community, if every citizen and particularly every businessman would decide to devote a small part of his time and energy to some particular line of community endeavor.

Hoover

By D. E. O'KEEFE

It is just a little more than a year since Herbert Hoover took over the reins of government. It was when the country was confronted with grave problems, a time when a big man was needed to grapple with these problems. President Hoover has shown by his wisdom, ability and statesmanship that he has measured up to the expectations of the people of the nation that elected him with one of the largest majorities ever accorded a president of the United States.

President Hoover has handled all these intricate questions with marked ability, wisdom and judgment that has won for him the admiration of the whole country.

He demonstrated his statesmanship during the stock debacle a few months ago when the United States was on the verge of a panic. By a shrewd move in calling all the chiefs of industry to Washington and urging them to let loose from their treasuries money to cause mass production in their various industries for the employment of men and to circulate funds throughout the country thus thwarting a financial crisis that threatened the United States at that time. Money began to circulate and in a short time the financial stress passed and once again business became normal all over the country. Only with such a man as President Hoover at the helm could the crisis be avoided. His superior wisdom, vision and economic skill and capacity to forsee the approach of the tidal wave of disaster saved the crash that menaced the financial structure of the country.

The other knotty problems he is meeting try.
with the same unusual skill, the same wisdom and similiar will be the results.

It is well that the country has such a man at Washington. It is times like these that a Hoover is needed in the WhiteHouse. It is the history of the United States that when big problems are before the people and when Moses is needed to lead the country in a crisis and to keep the ship of state in the proper channel, one usually comes forth from the people to take charge. So it is that Mr. Hoover is on the job to bring prosperity and people.
happiness and contentment to the American

California is proud of Mr. Hoover, its favorite son, and hopes that he will live long to enjoy the admiration and esteem of his countrymen.

Spoiling the View

Billboard advertising has been criticised of late as a nuisance and there is no reason why something offensive to the eye is not as much of a nuisance as that which is offensive to the nose.

What is more annoying than to motor through the country and have a fine bit of landscape interrupted by many colored billboards? Advertising is out of place there—it is of the commercial world and the country is not.

A slender poplar tree swaying in the wind is a thing of beauty. A billboard in front of it destroys the sight. A sunset with its rose and gold pouring into a pool or lake is inspiring. Place a billboard before it and the inspiration is shattered. A billboard near intrudes as shouting would intrude when a great artist plays Debussy. If Kreisler were interrupted while playing, the person who interrupted would be ejected unless an excellent excuse were offered. Billboards should be ejected also. They do not have an excellent excuse.

The Growth of Scouting

In 1910, an idea. In 1930, the greatest boys organization the world has ever known.

That is the record of the Boy Scouts of America as the organization reaches its 20th birthday.

The Boy Scouts of America was incorporated in 1910. Its membership at the end of the first year was 5,825. At the 10th birthday it was 503,726, and in 1930 the organization starts the year with a membership of approximately 582,000 scouts and officials.

That is a remarkable growth, and it may be attributed to the things for which scouting stands—character, patriotism, public service, outdoor life.

Scouting in this community deserves the staunch support of everyone.

Public Service
of the first order

The young women who operate the telephone switchboards in this office are in a public service of the highest order.

Their task is to bring human voices together, on an instant's notice, tho the speakers be miles apart. Theirs is to watch carefully for the slightest imperfections in communication. Theirs is to be deft-fingered, courteous, obliging; to realize the enormous importance that may lie behind any call, at any hour.

Every telephone call that these young women handle is a personal transaction with valued customers of this company.

LOCAL HAPPENINGS

Bonita Parlor No. 19 Native Daughters, will hold a card party in Odd Fellows Hall on Thursday afternoon, March 27, at 2:30 o'clock. Mrs. Dora Wilson is in charge.

Redwood Parlor No. 66, N. S. G. W. announces a card party in the Foresters Hall for Thursday evening, April 3. C. M. Junker is chairman of the committee in charge of arrangements.

The local post of the American Legion is sponsoring a card party in the War Memorial hall, Warren and Standish streets. Friday evening, April. 4. Chas. Ward is in charge. The admission will 25 cets, and refreshments will be served.

The ladies of the Redwood Social and Development Club will give a benefit whist party in the Foresters Hall this afternoon. Playing will start at 2:30 and the admission is 25 cents.

Tomorrow evening, the Woodside Parent-Teachers' Association will give a benefit card party in their hall in Woodside. In addition to the whist games there will be entertainment and refreshments. Tickets are selling for 50 cents and the committee, headed by Mrs. B. D. Ralston reports a large advance sale. The net proceeds will go toward the dental clinic.

Dr. and Mrs. A. E. O'Neill have returned from Eureka, where they were called last week on accoúnt of the passing of Dr. O'Neill's mother, Mrs. John O'Neill.

Miss Audine Martin, who had been ill at the home of her parents, Mr. and Mrs. A. M. Martin on Arch street, has resumed her teaching at the Hester school in San Jose.

Mrs. W. B. Langston and infant son have returned from the University of California hospital in San Francisco to their home on Birch street. The baby, the second son in the family, was born on February 26.

A travelogue sermon on Jerusalem, depicting its traditions, superstitions, ignorance and lack of sanitation, will be given next Sunday evening at the First Baptist church on Elm street by the pastor, Rev. C. H. Gatchell. Services will start at 7:30.

George Cosgrave, just appointed United States district judge to succeed Judge Henning, was here from Fresno this week visiting his brother, David Cosgrave, Redwood City attorney.

The Booster Committee of Bay View Lodge I. O. O. F., will hold another of its series of bi-weekly dances on Saturday evening in the Odd Fellows hall. The same music will be provided. Joe Gibson is in charge of arrangements.

Redwood Post of the American Legion will hold a dance in the War Memorial hall, Saturday evening March 29. Arrangements for the affair are being made by a committee consisting of Charles Ward, L. Devens and Joe Faso.

The annual communion of the Young Men's Institute, will be held March 23, 1930, at 8 o'clock mass at Menlo Park. After the mass a communion breakfast will be held. The place will be announced later. Members are urged to some and bring anyone who is considering joining the Y. M. I.

WOODSIDE

The new store building being erected by Neuman Bros. is growing rapidly. It is to be in the Spanish style with stucco walls and tile roof and will accord in type with the telephone building and the service station built by Neuman Bros. last July. There are those of us so wedded to the old things that we rather look with dread upon any change that will take away the glamor of the past. But it is an unfortunate fact that old things do wear out, and it is a matter of satisfaction that the new village that must perforce arise shall have as artistic a nucleus as will be furnished by this little group of buildings, harmonious in design in which beauty is not altogether subordinated to utility.

Mr. Rudolph Schilling, who has been in New York for several weeks, will arrive home on Friday night.

Mr. and Mrs. Manuel Goularte of Pescadero are spending the week with Mrs. Maria Goularte and her son, Joseph.

Mr. and Mrs. Harry Nicodemus who have been conducting the Alpine Lodge for the past two years, are returning to Woodside to live.

A card party was given by the Woodside Girl Scouts at their headquarters on Thursday afternoon.

Two brand new daughters arrived at the same time last week to brighten the home of the Christensen family.

The voters of Woodside will have two opportunities shortly to exercise their rights of suffrage. On the afternono of March 28th comes the election for school trustees, one for the local board and one for the high school board. On April 1st comes the election of Fire Commissioner. It is hoped that the residents will take enough interest in their local affairs to roll up a large vote in each occasion.

The stone masons have been busy for nearly two years on the Mortimer Fleishacker property. A very large lily pond has been constructed with the ends partly enclosed with elaborate rock work. It is now planned to build an entrance gate following the same general design in rock construction.

The entertainment and card party scheduled by the Parent-Teacher Association for Saturday night is creating a great deal of interest. It is the most elaborate affair of the year and will aid the fund for the dental clinic at the school.

Menlo Park

Venon Smith is here for a brief period on a visit to his pretty daughter who is a student at the junior college at Burlingame. She resides here with Mrs. F. I. Kurtz.

Bert Clute, twenty-five years ago a Southern Pacific station agent here, and now chief telegrapher for the San Francisco fire department, visited friends here Wednesday. On his retirement from the department he may make his home in the locality in which his young years were spent.

Next Thursday evening the P.-T. A. will hold its monthly card party in the new auditorium. Numerous valuable prizes are to be awarded the winners of the contest.

On Tuesday evening, April 1st, the Native Daughters will hold a card party in the new auditorium of the grammar school, the proceeds to be given to the homeless children fund of the society. Forty prizes will lure many fans that evening to contest for them.

Miss Eliza Weeden passed away last Friday following a brief illness. The deceased was born in San Francisco but came to Menlo Park as a child and attended the grammar school here. For many years prior to the retirement of the firm of Duff and Doyle, she was the chief bookkeeper for that concern. The funeral service at the Church of the Nativity on Monday morning was largely attended by sorrowing relatives and friends. The interment took place in Holy Cross cemetery. Miss Weeden was the youngest daughter of the late Charles Weeden who was an expert mechanic, and came here to work on the J. C. Flood building. The deceased is survived by three brothers, W. H., Charles and Edward Weeden, and a sister, Mrs. D. Driscoll, all residing in Menlo Park.

The Stewart Lowerys have moved down from the city to occupy their suburban home on Ringwood road. They are the forerunners of others that will be here for the summer shortly.

News from Washington brings the tiding that Herbert Hoover will spend two weeks at his home on the Stanford campus this summer. The summer capital will be established in the community for that length of time. Ae retinue of clerks, servants and executives and perhaps members of the cabinet will accompany the president here.

The State Highway Commission is quite busy at East Palo Alto and Ravenswood removing houses and trees from the site of the proposed Bayshore boulevard that will run through that section. Active work on the construction of the thoroughfare from Redwood City to the Embarcadero to the rear of Palo Alto, start soon. Dirt is to be flying by May 1st. During the week several leases have been executed for oil stations on the choice corners of the road in that locality. Attractive prices were received for these leases.

During the week W. E. Dale Alfred H. Anderson and E. J. Crane filed their nomination papers for trustees. The time for filing such papers will expire on March 24. Others are said will file before that time, so that the campaign will be well on next week and is to be a lively one to the finish on April 15.

The city council held a special meeting Tuesday evening to consider the passage of two ordinances, the temporary zoning ordinance and the nuisance ordinance. In the absense they were laid over until the next meeting of the council. The temporary zoning law was discussed at some length after it had been explained by the city attorney. Walker did not favor its passage at this time, explaining that it would cause a hardship to many, particularly to his politcal opponent, F. J. Furnivall, who intended to erect a frame structure on his property on the corner of Mills avenue and Oak Grove avenue. He thought best not to take any action until the regular zoning ordinance would be ready for passage in a few weeks. Dale did not favor either law. Louis Beltramo presented plans and specifications for a frame building to be erected on Stanford Park at a cost of $2,000. The plans were referred to the building inspector with instruction to grant the permit. Beltramo appeared on behalf of John Musso.

The planning commission held a public meeting at the school house Friday evening to hear discussion on the proposed zoning ordinance. Edward Quayle thought the business district on the highway should not extend beyond Middel avenue on the south and Valparaiso avenue on the north. Mayor Ellis and others insisted that the entire highway should include the business district. The commission will hold another meeting next Monday evening. The proposed ordinance is, with a few changes, similar to the one adopted by the former planning commission, whose members were ousted and the ordinance consigned to the garbage can.

Ellis Howard, head master of the Menlo School for boys, leaves today for Boston for a two months' trip on pleasure and business.

Dr. J. H. Raymond has gone to Los Angeles for a month on business. His beautiful home here will be in charge of his son during his absence.

Within thirty days street improvements will start in Menalto Park. These improvements will be of the very best, much above the work done in other subdivisions.

The St. Patrick's entertainment last Saturday night was a big success. Standing room in the Hall of the Nativity was at a premium. The program was splendid and enjoyed by all. All the actors and actresses acquitted themselves well.

Exchangites Hear Of Work With Fish

Members of the Redwood City Exchange club were given an interesting talk on fish, Tuesday evening, at the regular meeting of the club. The speaker was Prof. J. O. Snider, a member of the faculty of Stanford University. Prof. Snider spoke on the conservation of fish, and illustrated his talk by a number of interesting charts.

The chairman of the meeting was J. P. Hearne. An interesting feature of the meeting was the singing of Thomas Glynn, well-known radio singer, of several Irish songs. The tables were decorated in green for which occurred the day before. Jack Fox gave a brief sketch of the observance of St. Patrick's Day, his life.

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

No. 17060

CELIA CLARK, also known as CELIA TOBIN CLARK,

Plaintiff

vs.

ALL PERSONS claiming any interest in, or lien upon, the real property herein described, or any part thereof,

Defendants.

KIRKBRIDE, WILSON & BROOKS, Peninsula Building, San Mateo, California, Attorneys for Plaintiff.

SUMMONS TO ESTABLISH TITLE

The People of the State of California Send Greetings To:

All persons claiming any interest in or lien upon, the real property herein described or any part thereof, defendants:

You are hereby required to appear and answer the complaint of plaintiff, filed with the Clerk of the above Court and County within three months after the first publication of this Summons, and to set forth what interest or lien, if any, you have in or upon that certain real property or any part thereof situate in the County of San Mateo, State of California, and particularly described as follows, to-wit:

BEGINNING at a point where the division fence line between properties formerly owned by John Parrott and Walter S. Hobart intersects the southwesterly line of the main county road of the County of San Mateo, also known as State Highway and as El Camino Real, said point being the most northerly corner of the lands formerly owned by Walter S. Hobart; thence on and along said division fence line South 43° 7' West 8457 feet 6 inches to the extreme southwesterly point of the northwesterly boundary line of those certain lands conveyed by Walter S. Hobart and Hannah Hobart, his wife, to W. A. Clark by deed dated April 8, 1904 and recorded April 15, 1904, in liber 108 of deeds at page 334, San Mateo County Records; thence South 43° 7' West 138.6 feet; thence South 55° 30' East 6.90 chains; thence south 50° 45' West 3.32 chains; thence South 37° 15' West 10.09 chains to a point, which point is marked with an iron monument marked "P.2" set in concrete, which point is common to the properties now or formerly owned by A. M. Parrott, Celia Clark and Spring Valley Water Company and said point being more particularly described in that certain deed between Spring Valley Water Company, a corporation, and Celia Clark, dated October 4, 1929, and recorded October 16, 1929, in liber 433 of Official Records at page 443, San Mateo County Records; thence along a fence line as it exists on this date South 2° 13' East 228.48 feet to a fence post marked "P.3"; thence South 13° 28' East 75.40 feet to a fence post marked "P.4"; thence South 22° 28' East 62.50 feet to a fence post marked "P.5"; thence South 27° 43' East 191.00 feet to a fence post marked "P.6"; thence South 23° 58' East 132.60 feet to a fence post marked "P.7"; thence South 18° 58' East 193.50 feet to fence post marked "P.8"; thence South 20° 48' East 415.40 feet to a fence post marked "P.9"; thence South 15° 09' East 345.60 feet to a fence post marked "P.10"; thence South 14° 39' East 733.52 feet to a fence post marked "P.11"; thence South 39° 57' East 823.82 feet to a fence post marked "P.12"; set at a point common to the properties now or formerly owned by Celia Clark, P. B. Casey and the Spring Valley Water Company, a corporation; thence North 43° 15' East 4813.38 feet to the point of beginning of these certain lands conveyed by Walter S. Hobart, an unmarried man, to Charles W. Clark by deed dated April 9, 1914, and recorded June 2, 1919, in liber 282 of deeds at page 231, San Mateo County Records thence North 33° 43' West 1512.5 feet to a point, which point is the most northerly corner of the lands of the San Mateo City Homestead Association as shown on the map entitled "Lots of the San Mateo City Homestead" filed February 20 1872 in the office of the Recorder of San Mateo County in Book A of Maps at page 3 and copied in Book 1 of Maps at page 46; thence South 80° 01' West 269 feet; North 37° 30' West 587.80 feet; thence North 82° 0' East 147.70 feet and North 77° 24' East 163 feet to the most westerly corner of the lands conveyed by Charles W. Clark et ux to Walter S. Hobart by deed dated March 7, 1903 and recorded May 13, 1909 in liber 164 of deeds at page 189, San Mateo County Records; thence North 67° 34' East 1247 feet and 4 inches to the most westerly corner of that certain tract of land containing 1000 square feet conveyed by Walter S. Hobart et ux to Celia Tobin Clark by deed dated July 29, 1929 and recorded September 17, 1929, in liber 432 of Official Records at page 336, Records of San Mateo County running thence along the southerly boundary line of said tract of land conveyed to Clark South 89° 27' 00" East 53.88 feet to the most southerly corner of said tract of land containing 1000 square feet; running thence along the southeasterly boundary line of said tract of land containing 1000 square feet, North 43° 07' East 51 feet to the most easterly corner of said tract of land containing 1000 square feet said tract of land being also the most easterly corner of the lands conveyed by Charles W. Clark et ux to Walter S. Hobart by deed dated March 7, 1903 and recorded May 13, 1909, in Liber 164 of deds at page 189 above referred to running thence north 43° 7' East 4565 feet to the southwesterly line of the main county road thence North 41° 28' West 1351 feet to the point of beginning.

EXCEPTING THEREFROM AND THEREOUT the following parcels of land:

BEGINNING at a point on a line drawn parallel with and distant 30.00 feet Southwesterly measured at right angles from the Southwesterly line of the County Road known as El Camino Real, distant on said parallel line South 41° 28' East 527.03 feet (the bearing of said Southwesterly line being called South 41° 28' East for purposes of this description) from the Southeasterly line of that certain roadway known as Cemetery Lane, as said roadway is particularly referred to in that certain Deed from Abby M. Parrott to the Roman Catholic Archbishop of San Francisco, a corporation sole, dated May 28, 1885, and recorded August 8, 1885, in Liber 39 of Deeds at page 207 and running thence from said point of beginning South 42° 52' West 1126.01 feet; thence parallel with said Southwesterly line of said County Road South 41° 28' East 562.75 feet; thence North 42° 52' East 1126.01 feet to a point on said line parallel with and distant 30.00 feet Southwesterly from the Southwesterly line of said County Road; thence along said parallel line North 41° 28' West 562.75 feet to the point of beginning and containing 14.4758 acres, more or less.

ALSO BEGINNING at a point on the Southwesterly line of the County Road known as El Camino Real distant thereon South 41° 28' East 526.97 feet from the South easterly line of that certain roadway known as Cemetery Lane particularly referred to in that certain Deed from Abby M. Parrott to the Roman Catholic Archbishop of San Francisco a corporation sole, by Deed dated May 28, 1885 and recorded August 8, 1885, in Liber 39 of Deeds at page 207 and running thence along said Southwesterly line of El Camino Real South 41° 28' East 562.75 feet thence leaving last said line South 42° 52' West 30.15 feet; thence parallel with said Southwesterly line of El Camino Real and distant therefrom 30 feet Southwesterly at right angles North 41° 28' West 562.75 feet and thence North 42° 52' East 30.15 feet to the point of beginning. Containing 0.3876 acres, more or less.

AND YOU ARE HEREBY NOTIFIED that unless you so appear and answer, the plaintiff will apply to the Court for relief demanded in the Complaint, to-wit: That this Court by its judgment and decree ascertain and determine all estates, rights, titles, interests and claims in and to said real property and every part thereof, whether the same be legal, or equitable, present or future, vested or contingent, or whether the same consists of mortgages or liens of any description; that it be adjudged and decreed that the claims of any person claiming an interest in, or lien upon, the real property herein described or any part thereof, is without merit, and that they have no claim, right, title estate or interest whatsoever in and to said real property or any part thereof; that this Court adjudge and decree this plaintiff to be the owner in fee simple absolute to said real property and every part thereof, and to be in the actual and peaceable posession of said property and every part thereof and establish plaintiff's title thereto against all persons whomsoever and for such other relief as may be meet and for plaintiff's costs herein.

WITNESS the hand and seal of said Court this 28th day of January, 1930.

ELIZABETH M. KNEESE,
(SEAL) County Clerk
By G. R. WINTER,
Deputy Clerk

First publication in Times-Gazette, March 21, 1930; last publication May 23, 1930.

MEMORANDUM

The first publication of this Summons was made in the "Times-Gazette" newspaper on the 21st day of March, 1930.

MEMORANDUM

The following persons are said to claim an interest in or lien upon said real property adversely to plaintiff:

Theodore G. Meyer, 600 28th Avenue, San Francisco, California.

Rollin E. Meyer, 90 Santa Paula Street, San Francisco, California.

Meyers Bros. 727 Portola Drive, San Francisco, California.

Hobart Estate Company, Balfour Building, San Francisco, California.

Spring Valley Water Company, 425 Mason Street, San Francisco, California.

S. B. Whipple, address unknown.

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

In the Matter of the Guardianship of the Estate of BARBARA STIVERS, a Minor.

No. 5063

NOTICE OF SALE OF REAL ESTATE

NOTICE is hereby given that the undersigned, guardian of the estate of Barbara Stivers, a minor, will, on or after the 24th day of March, 1930, sell at private sale, to the highest and best bidder, upon the terms and conditions hereinafter mentioned, and subject to confirmation by the said Superior Court, all the right, title and interest of said Barbara Stivers, a minor, in and to the following described property, towit:

An undivided 15-42nds interest in and to that certain parcel of real property situate in the County of Merced, State of California, described as follows:

The south-half (S½) of the northwest quarter (N.W.¼) of and that portion of the southwest quarter (S.W.¼) of Section three (3) Township five (5) South Range fourteen (14) East Mount Diablo Base and Meridian, lying north of the Snelling and Merced Falls Road, excepting the right of way of the Yosemite Valley Railroad, comprising 178 acres of land more or less, subject to the life estate of Rosalind Bost Stivers.

The terms and conditions of sale are as follows: Cash, in gold coin of the United States, ten (10) per cent of the amount bid to be paid at the time of the acceptance of bid, and the balance on confirmation of sale by the said Superior Court and delivery of deed.

All bids and offers must be in writing and may be delivered to the undersigned guardian of said Barbara Stivers, a minor, personally, or left at the office of the "Times-Gazette" 2061 Broadway, Redwood City, California, or may be filed in the office of the Clerk of said Court above named at any time before the making of the sale.

Dated: February 27, 1930.

ROSALIND BOST STIVERS,
Guardian of the estate of Barbara Stivers, a minor.

First publication in Times-Gazette March 7, 1930; Mar. 14; and last publication March 21, 1930.

SUMMONS

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

ANTONE J. CARDOZA,
Plaintiff

vs.

IDA C. CARDOZA,
Defendant

No. 17179

Action brought in the Superior Court of the State of California, in and for the County of San Mateo and the complaint filed in said County of San Mateo in the office of the Clerk of said Superior Court.

KINCAID & FITZPATRICK, Attorneys for Plaintiff, Redwood City, California.

The People of the State of California Send Greetings to:

IDA C. CARDOZA,
Defendant

You are hereby required to appear in an action brought against you by the above named plaintiff, in the Superior Court of the State of California, in and for the County of San Mateo, and answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of this Summons, if served within said county, if served elsewhere within thirty days.

And you are hereby notified that if you fail to so appear and answer, the plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or will apply to the Court for any other relief demanded in the complaint.

Witness my hand and the Seal of the Superior Court of the State of California, in and for the County of San Mateo, this 3rd day of March, A. D. 1930.

ELIZABETH M. KNEESE,
(SEAL) Clerk.
By MURA B. STILLESON,
Deputy Clerk.

NOTICE OF TRUSTEE'S SALE

Whereas, JACOB C. LEONHART and NELLIE A. LEONHART, his wife, Trustors, did make, execute and deliver a certain deed of trust dated the 1st day of June, 1925, to ANGLO - CALIFORNIA TRUST COMPANY, a corporation, as Trustee, and LEONARD & HOLT, a California corporation, Beneficiary, conveying the land hereinafter described, to secure the payment of the promissory note in said deed of trust mentioned, which said deed of trust was recorded in the office of the County Recorder of the County of San Mateo, State of California, in Liber 181 of Official Records, at page 196, on the 4th day of August, 1925; and

WHEREAS, said Deed of Trust and the debt thereby secured was duly transferred and assigned by the said LEONARD & HOLT, a California corporation, to LENOLT NATIONAL SECURITIES CORPORATION, a corporation, on the 13th day of June, 1929, which said assignment was duly recorded in the office of the County Recorder of San Mateo County, State of California; and

WHEREAS default has been made by said Trustors in the payment of the obligation secured by said deed of trust; and

WHEREAS, notice of the breach of said obligation has been given by said LENOLT NATIONAL SECURITIES CORPORATION, a corporation, by recording said notice on the 29th day of October, 1929, in Vol. 442 of Official Records, at page 311, Records of the County of San Mateo, State of California;

NOW THEREFORE, pursuant to the demand of the Beneficiary and in accordance with the terms of said deed of trust, the Trustee hereby gives notice that on the 25th day of March 1930, at the hour of 2 o'clock P. M., at the place of business of said Trustee, at 532 Market Street, San Francisco, California, it will sell at public auction to the highest bidder for cash, Gold Coin of the United States of America, payable to the undersigned on the fall of the hammer, all that certain real property situate in the Town of Redwood City, County of San Mateo, State of California, and bounded and described as follows, to-wit:

Commencing at a point in the northeasterly line of Lot numbered eight (8) in Block numbered six (6) as shown on the map hereafter referred to, said point is further described as being the southwesterly line of Avenue Del Ora and distant thereon measured in a southeasterly direction 47.44 feet from the northwest corner of aforsaid lot 8, block 6, thence in a southeasterly direction along aforesaid southwesterly line of Avenue Del Ora 47.45 feet to a point in said line; thence leaving said line crossing and subdividing aforesaid Lot 8, S. 20° 20' 24" W. 96.96 feet to the southwesterly line of aforesaid Lot 8; thence along said line N. 74° 37' W. 42.93 feet to a point in said line; thence leaving said line crossing and subdividing aforesaid Lot 8, N. 18° 06' E. 92.18 feet to the point of commencement.

Being a portion of Lot numbered Eight (8) in Block numbered Six (6) as shown on that certain map entitled "New High School Acres, Redwood City, California," filed in the office of the County Recorder of San Mateo County June 25, 1923 in Book 11 of Maps at Pages 36, 37 and 38.

JOSEPH B. FELIZ and CERES FELIZ, his wife,
Plaintiffs,

VS

All Persons Claiming Any Interest In, or Lien Upon, the Real Property Herein Described, or Any Part Thereof,
Defendants.

SUMMONS TO ESTABLISH TITLE

The People of the State of California: ...To All Persons Claiming Any Interest In, or Lien Upon, the Real Property Herein Described, or Any Part Thereof, Defendants,

GREETING:

You are hereby required to appear and answer the Complaint of Joseph B. Feliz and Ceres Feliz, his wife, Plaintiffs, filed with the Clerk of the above-entitled Court and County, within three months after the first publication of this Summons, and to set forth what interest or lien, if any, you have in or upon that certain real property or any part thereof, situated in the County of San Mateo, State of California, described as follows:

Portions of Lots 46 and 47 as designated upon that certain map entitled, "Map of the Subdivision of the Polhemus Tract in the Rancho de las Pulgas," which map was filed in the office of the County Recorder of the County of San Mateo, State of California, on August 29, 1891, in Liber "C" of Maps, at page 64, and a copy thereof entered in Liber 2 of Maps at page 35, more particularly described as follows:

Beginning at the point of intersection of the Northeasterly line of said Lot 46 with the Southeastly line of Randol Avenue as said Lot and Avenue are shown on said map, thence Southeasterly along the Northeasterly line of said Lot 46, 440 feet more or less to the most Northerly corner of that certain tract of land conveyed by Charles B. Polhemus to Richard D. Girvin by deed dated October 24, 1891, and recorded November 4, 1891, in Liber 58 of Deeds at page 203, thence leaving said line of Lot 46, and running along the Northwesterly line of said property so conveyed to Richard D. Girvin, South 31° 44' West 660 feet to a point in the Southwesterly line of said Lot 47, thence running along the Southwesterly line of said Lot 47, Northwesterly 440 feet to the Southeasterly line of Randol Avenue and thence along said line of Randol Avenue, North 31° 44' East 660 feet to the point of beginning.

And you are hereby notified that, unless you so appear and answer, the plaintiffs will apply to the Court for the relief demanded in the Complaint, to-wit: That it be adjudged that the Plaintiffs are the owners of said real property in fee simple absolute; that their title to said real property be established and quieted; that the Court ascertain and determine all estates, rights, titles, interests and claims in and to said real property, and every part thereof, whether the same be legal or equitable, present or future, vested or contingent, and whether the same consists of mortgages or liens of any description; that plaintiffs have such further relief as may be meet in the premises.

WITNESS my hand and the Seal of said Court this 28th day of February, 1930.

ELIZABETH M. KNEESE,
(SEAL) Clerk
By E. L. FALVEY,
Deputy Clerk.

The first publication of this Summons was made in the Times-Gazette newspaper on the 7th day of March, 1930.

MEMORANDUM

The following persons are said to claim an interest in, or lien upon, said real property, or part thereof, adverse to Plaintiffs:

Charles B. Polhemus, also known as C. B. Polhemus, address unknown.

Miss Josephine M. Polhemus, address unknown.

Charles B. Polhemus, 675 Stockton Ave., San Jose, California.

Jane E. Polhemus, 675 Stockton Ave., San Jose, California.

Pacific States Savings & Loan Company, a corporation, 745 Market St., San Francisco, California.

GILBERT D. FERRELL, Attorney for Plaintiffs, Redwood City, California.

First publication in Times-Gazette, March 7, 1930; last publication May 9, 1930.

NOTICE OF SALE OF REAL ESTATE

In the Superior Court of the State of California, in and for the City and County of San Francisco.

In the Matter of the Guardianship of the Person and Estate of ELSIE ROSENWINKEL, an Insane Person.

Co. Shows Low Infant Mortality

Average for State In Slight Increase Last Year

By ELWOOD SQUIRES
(United Press Staff Correspondent)

SACRAMENTO, March 19—(UP)—California maintained its position as a paradise for babies in 1929, by showing the usual low infant mortality rate which consistently characterizes this state.

There were 27 deaths in San Mateo county during the year, a rate of 49.7 per 1000 of total births, with 5,139 deaths reported for the entire state.

The infant death rate for the state as a whole rose slightly in 1929 to 63.1, compared with 62.4 in 1928, according to the state department of public health, which supplied the data.

Probing into the cause of the increase in mortality, the department stated that the rise is due to the reduced total number of births that occurred last year, because the rate is based on the ratio of deaths to births of infants.

Indian babies led all other races in a high mortality, registering 140.1 per 1000. Close behind was the rate of Mexican infant deaths, at 135.1. White babies were lowest on the scale, with a rate of but 46.3.

Diseases of early infancy caused a large percentage of total deaths among babies, the survey showed.

"Congenital conditions which cannot be changed are responsible for a large proportion of infant deaths, but it is believed that fully half the infant deaths that occur are preventable," the department reported.

"As a meter of public health progress, contributed to from various channels, the infant mortality rate serves as a reliable index of general public health conditions. Family customs and characteristics peculiar to different races undoubtedly play important parts in production of high infant mortality rates.

"Lack of knowledge concerning the best methods of infant care also constitutes a prime factor in production of this high rate."

Those counties on the honor list with low infant death rates were as follows: Glenn, Sacramento, El Dorado, Marin, Plumas, Santa Cruz, Siskiyou, Colusa Sierra, Inyo, San Mateo, Placer, Stanislaus, Nevada, Solano, Los Angeles, Monterey and Butte.

ICE BOX BEAUTY CONTEST.....

THE greatest refrigerator manufacturers in the nation have held a beauty contest. Your ice company will show you the winners—iceboxes that are real masterpieces of modern household equipment — in gleaming white or pastel colored finishes making any model an adornment to your kitchen.

But that isn't all—they are "college graduates." Columbia University has approved the efficiency of their design, insulation and sanitary features. They provide amply low temperatures (less than 50°) and yet use but little ice.

SOLD BY YOUR ICE MAN AT HALF OLD-TIME PRICES . . . For $25 to $65 you can have one of these beautiful and efficient iceboxes in your kitchen. Your ice man will sell it to you on easy terms—and make you a generous allowance on your old icebox.

Why pay the equivalent of a twelve-year ice bill for a chemical refrigerator? Remember that ice is not only the cheapest but the best refrigeration. For only ice gives a constant circulation of clean, washed air that carries odors and impurities away and preserves the freshness and flavor of your food. See the new iceboxes today.

OCAll 1930 30-1

WHY PAY MORE? There is no need to pay a huge sum for chemical refrigeration when an efficient modern icebox will do the best, the safest and cheapest refrigerating job.

Announcing Another P·G·and E· Electric Rate Reduction

$2,400,000.00 Saving to Consumers

Now, electric rates for consumers of the Pacific Gas and Electric Company are reduced over Two Million, Four Hundred Thousand Dollars a year.

Lighting rates are cut to a maximum rate of 4½ cents per kilowatt hour for incorporated areas, with a similar reduction in all areas.

The new rates are of greatest benefit to the small consumer—the residence user, stores and offices. Substantial reductions have been made in commercial, industrial and agricultural power rates. Street lighting rates are reduced.

Domestic combination rates for consumers using lighting service and in addition having electric appliances for heating and/or cooking, are as low as 1½ cents per kilowatt hour. The new commercial lighting schedules provide for lighting rates as low as 2 cents per kilowatt hour.

These new schedules providing lower electric rates are designed to encourage liberal usage of electricity at low cost. The new rates are among the lowest obtainable anywhere.

ELECTRICITY IS CHEAPER — YOU CAN USE MORE — MAKE IT YOUR SERVANT

Let electricity brighten the gloomy corners. Let it do the cooking, ironing, washing. Let it sweep the floors, operate the electric fan, drive away chills. It will percolate the coffee, make the toast, keep food warm or cool and wholesome.

Modern electric appliances bring comfort, convenience and economy.

Many Weddings in Sight

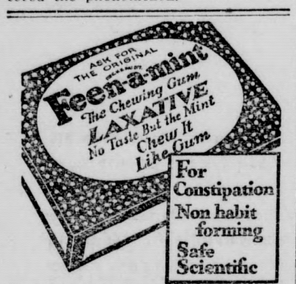
When some girls are already thinking of the wedding ring their health fails, they become nervous, high-strung, irritable, and through this loss of control many a young woman loses her future happiness. As a tonic at this time, and in motherhood or in middle life, there is nothing to equal **Dr. Pierce's Favorite Prescription.**

One woman said: "I gave Dr. Pierce's Favorite Prescription to my daughter who was backward in development. It helped her to become a healthy woman, instead of a sufferer from inward weakness. I have taken it myself at various times when in need of a tonic and nervine, and have always found it helpful."—Mrs. L. M. Odor, 2404½ E. 37th St., Los Angeles, Calif. (Sold by dealers.)

Write Dr. Pierce's Clinic, in Buffalo, N. Y., for medical advice, free.

Silly Old Superstition

One of the most persistent ideas during ancient and medieval times, was that jewels had sex. Dark-colored stones were supposed to be male and the lighter ones female. Under proper conditions they were said to reproduce, and in the Middle ages everybody had a cousin who had a friend who had actually encountered the phenomenon.



Kill Rats Without Poison

A New Exterminator that Won't Kill Livestock, Poultry, Dogs, Cats, or even Baby Chicks

K-R-O can be used about the home, barn or poultry yard with absolute safety as it contains **no deadly poison.** K-R-O is made of Squill, as recommended by U. S. Dept. of Agriculture, under the Connable process which insures maximum strength. Two cans killed 578 rats at Arkansas State Farm. Hundreds of other testimonials.

Sold on a Money-Back Guarantee. Insist upon K-R-O, the original Squill exterminator. All poultry supply, drug, and seed stores—75c. Large size (four times as much) $2.00. Direct if dealer cannot supply you. K-R-O Co., Springfield, O.

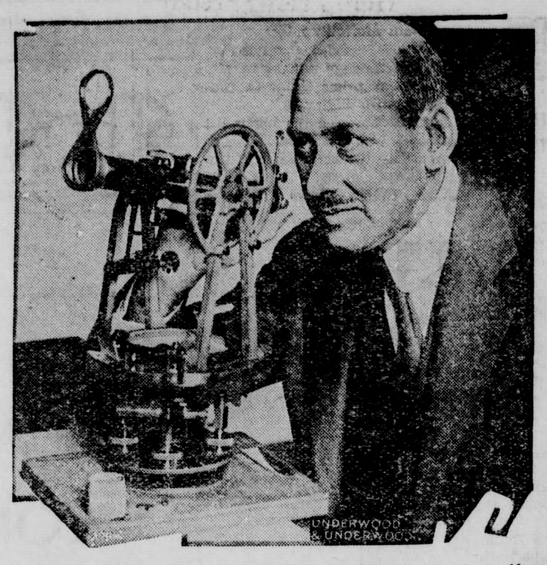
Predicts Tours to Moon Soon



Robert Hutchins Goddard, physicist at Clark university, Worcester, Mass., claims that he has discovered a principle of propulsion by means of a liquid explosive that will soon enable human beings to undertake trips as far away from the earth as the moon. A round trip to the satellite, predicts Professor Goddard, should take about six days. He is shown with a new appliance adapted to watching a rocket traveling through space.

"Long Termer" May Be Innocent

Marquette, Mich.—Whether Stanley Ridler of Detroit is serving 12½ to 25 years in the Michigan state prison at Jackson for a crime he did not commit is a question to which Arthur D. Wood, pardon and parole commissioner, is seeking the answer.

Anthony Machus, serving life in Marquette branch prison, has told Mr. Wood that he and an unnamed companion, now dead, carried out the hold up for which Ridler was sentenced. Machus said he had kept silent because he did not wish to implicate his companion, but the death of the latter recently, he said, had removed this motive.

Mr. Wood said he had gone over the Ridler case recently and was inclined to believe that Machus was telling the truth. Ridler has insisted all the time that he is innocent. Mr. Wood intimated he would recommend a pardon for Ridler if his investigation bore out the story told by Machus.

Ridler was found guilty October 25, 1924, of holding up John A. Dietrich, superintendent, and Frank G. Welhon, auditor of the Detroit Twist Drill company, February 10, 1923, as they were transporting an $8,300 pay roll. Ridler was convicted on his third trial, the first two juries disagreeing. His defense was an alibi.

Mr. Wood said his inquiries showed that at the time of the pay roll robbery Ridler owned a five-chair barber shop and was in a comfortable financial condition. At his first trial the jury stood 9 to 3 for acquittal and at the second trial the vote was 11 to 1 for a verdict of not guilty.

Between his second and third trials Ridler disappeared and his bond was forfeited. He was arrested later at the home of a relative. Ridler also was arrested in the slaying of Malcolm McGregor at the Halfway house, owned jointly by Ridler and Harry (Kid) Harris, but was discharged later when the chief witnesses were unable to positively identify him in court.

Machus, a Chicago gangster, was one of four men who killed Patrolman Casimir Kaliszewski while fleeing after taking $27,000 from the Chene street and Harper avenue branch of the Central Savings bank, now the First National bank.

His companions were Stanley (Big Stack) Podulski, his cousin, John Podulski, and Walter Filipkowski. Machus, John Podulski, and Filipkowski were given life for killing Kaliszewski, while Stanley Podulski, convicted of another robbery, was given 20 to 40 years.

We Want So Much Now-a-Days

Oklahoma Girl Strong as Boy

"Louise Alice was fretful, nervous and all run-down from whooping cough," says Mrs. F. J. Kolar, 1730 West 22nd St., Oklahoma City, Okla. "The little I could force her to eat wouldn't ever digest. She became underweight, sallow and weak.

"Then I decided to try California Fig Syrup, and the results surprised me. Her bowels started working immediately, and in little or no time she was eating so she got to be a pest at the table, always asking us to pass things. Her weight increased, her color improved and she began to romp and play again like other children. Now she's the picture of health, and strong as a boy."

Pleasant-tasting, purely vegetable California Fig Syrup acts surely and quickly to cleanse your child's stomach and bowels of the souring waste that is keeping her half-sick, bilious, sallow, feverish, listless, weak and puny. But it's more than a laxative. It tones and strengthens the stomach and bowels so these organs continue to act normally, of their own accord.

Over four million bottles used a year shows its popularity. Ask for it by the full name, "California Fig Syrup," so you'll get the genuine endorsed by physicians for 50 years.

News Sheet for Tramps Published in England

Appearance of the Abraham-man's News, the new Birmingham (England) news sheet for tramps, has not only originated one of the unique publications in the world, but also revealed a language that has a place alone. "Abraham-man" is slang for vagabond. The paper is a single sheet of typed matter, evidently produced on a cheap duplicating machine. The price is one "flach," the equivalent of two cents. The newspaper contains information about "Irishmen's theaters" (prisons) and has a guide for the "blackberry swagger" (hawker) and other itinerant visitors. The best of the "wool-holes" (workhouses) are given honorable mention, and all the "ganny vials" (towns where the police dislike hawkers and tramps) are listed. The "screever" (pavement artist) is informed where he can loan chalked pictures.

Millions now use Russ Ball Blue. Makes clothes snowy white. Get the genuine.—Adv.

Old Swedish Currency Hard on the Pockets

Numismatists attending the regular monthly meeting of the Chicago Coin club were mildly amazed at the arrival of their fellow member, Ragnar Cederlund, who with some unsteadiness made his way into the clubroom, lugging a black satchel which he deposited, not without difficulty, on the speaker's table.

The numismatists glanced dubiously at one another. Their worst fears were confirmed when their brother pointed to the bag and announced triumphantly, "I got three dollars in there. Lift it." The members tried, but the satchel evidently contained something more substantial than coins.

"Now," continued Mr. Cederlund, "I'll show you what makes it so heavy." He produced three immense slugs of metal, the smallest weighing 20 pounds.

"Three ancient Swedish dollars," he explained. "I picked them up at an auction sale a week ago."—Chicago Evening Post.

Burning Skin Diseases quickly relieved and healed by Cole's Carbolisalve. Leaves no scars. No medicine chest complete without it. 30c and 60c at druggists, or J. W. Cole Co., Rockford, Ill.—Advertisement.

Woman Scales Zealand Alps

Mount Teichelmann, which is more than 10,000 feet high, and the only peak in the southern Alps of New Zealand which had not been scaled, was recently conquered by a woman. She is Miss Kate Gardner of England. She was accompanied by H. E. L. Porter, an English Alpinist. Porter declares that the views of Mounts Tasman and Cook from the summit of Mount Teichelmann "took one's breath away."

Don't Seem Reasonable

Mazie—It tells here of a jane suing a man for $5,000 damages because he kissed her!

Daisy—Can you tie it! One kiss couldn't damage a complexion that much, no matter how rough the big boy got!

Perhaps Too Much Down

"Don't you think my new hat is rather ducky, dear?"

"Yes, but the bill is too large."

FEEL GOOD?

Most ailments start from poor elimination (constipation or semi-constipation). Intestinal poisons sap vitality, undermine your health and make life miserable. Tonight try NR—NATURE'S REMEDY—all-vegetable corrective—not an ordinary laxative. See how NR will aid in restoring your appetite and rid you of that heavy, logey, hopeless feeling.

Mild, safe, purely vegetable—at druggists, only 25c

TOMORROW ALRIGHT

"Love" Criminals Fear the Lash

Paris.—The French press hailed as an admirable solution to prevalent "love crimes" the recent lashing in Temesvar, Rumania, of a woman sentenced to six years of forced labor for having killed her rival.

Madame Borugsch, convicted of having murdered Mlle. Anna Lowinal last October, was given 60 blows of the lash on her naked back a few days ago. Various newspapers of central Europe voiced an indignant protest that a woman should be so badly flogged that her back resembled raw beefsteak after the ordeal.

Not so the Paris journals; echoing the satisfaction manifested by the Temeshwar Hirlap at the added punishment inflicted on the murderess Parisian editors are pointing out the excellence of this phase of Rumanian criminal procedure.

Despite the spectacle of a woman's back being slowly beaten into a bloody pulp, French critics are inclined to attach more importance to another angle of the affair. They find exceedingly significant the statement by the Temeshwar Hirlap that since the flogging law went into effect the so-called love crimes have almost been exterminated in Rumania. Such crimes committed by women numbered 164 in 1920; this formidable figure was reduced to 38 in 1922, to 26 in 1923, to 22 in 1924, and dropped to 8 last year, thanks to the rigid application of the law of the knout.

Madame Dora Borugsch has had her back pounded into a jelly, say the French journalists and the Temeshwar Hirlap, but 156 persons who would normally be rotting in the cemeteries are now sleeping tranquilly in their beds. The Temeshwar Hirlap looks favorably on the result, and so does the French press.

Enough of sloppy sentimentality say the French; "love crimes" are committed not for love or love despised but by assassins enraged by the poison of self-love. Who will then have the courage, demands one Parisian editor, to propose in the chamber of deputies a similar law designed to save 156 lives?

One Does

Are boyish girls more attractive than girlish boys; or does one prefer girls to be girls and boys to be boys? —Terre Haute Tribune.

It is usually our own fault when things go wrong, but it is human nature to want to blame the other fellow for it.

Find Ancient Village in Yucatan

Washington.—An occupied Indian village, surrounded by a high stone wall, has been discovered in Yucatan by Capt. Robert R. Bennett of this city, who is conducting an important expedition in that land of ancient civilization, under auspices of the Museum of the American Indian, New York city.

"This village," said a statement from the museum, "is not on any map that is known and its discovery is of the greatest importance, particularly as it is one of the few walled villages known to be in existence in Yucatan." No description of the occupants was given.

"The ruins are about 2,000 years old, according to one stela dated A. D. 260," said a statement based on a letter from Captain Bennett. "They cover a vast area of ground, but nothing was found in the way of art.

"The mounds are very high, with small temples on top, and ranges of buildings between them. The grand level plaza is reached by two terraces with steps varying from 150 to 200 feet in width.

"After climbing one of the highest pyramids Captain Bennett saw unnumbered mounds and buildings, with another extremely high mound some miles directly to the east. Other explorers have noted the two lakes at Coba, but from this high pyramid the expedition noted four of them in a line, running northwest to southwest; the largest is about one-half mile wide and three-fourths of a mile long. This is the one which Col. Charles A. Lindbergh tried to alight on during his recent aerial explorations to Yucatan, but he found it too small for this purpose and could only skim over it and rise again."

Captain Bennett reported the country is extremely wild and unexplored. The expedition also includes another Washingtonian, Crawford Johnson, son of Charles H. Johnson. The party left Valladolid on January 13 with six Indians and nine mules, going first to Coba.

Baby Killed With Scissors Found in Berlin Theater

Berlin.—The watchman of the Nollendorf theater, in making his rounds following the Sunday night performance, found the murdered body of a new born girl baby in a dark corner of a side room just off the auditorium proper, the police revealed today. A pair of bloody embroidery scissors with which the child had been stabbed to death lay nearby.

Chicken Blood Saves Boy, Ill With Pneumonia

Lincoln, Neb.—Six-year-old Gene Roland owes his life to a chicken. Doctors had given up all hope of saving his life after he had been stricken with pneumonia. As a last resort a chicken blood transfusion was administered. Doctors announced it was successful.

WOMAN'S HIGH PLACE

Mrs. Cairine Mackay Wilson, wife of Norman F. Wilson of Ottawa, has become Canada's first woman senator following the ruling of the privy council last fall that women are "eligible persons." Mrs. Wilson, who is the mother of eight children, is a daughter of the late Senator Robert Mackay of Montreal. She is honorary president of the National Federation of Liberal Women of Canada, past president of the Ottawa Women's Canadian club, and founder of the Ottawa Women's Liberal association.

THE WORDS OF MY MOUTH

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

David was certainly temperamental, as most musicians are. He was impulsive and hot-headed as one may easily conclude from reading his history. Tradition says he had red hair, and this fact may account for some of his erratic acts. Shepherd boy or king, he knew his weaknesses, and his strength, and he realized the need of self control. "Let the words of my mouth . . . be acceptable," was his prayer. We can conceive then, that hot words, profane words, it may be, not infrequently rushed to his lips, but he knew that such expressions were unworthy of him, and he wanted to be right.

A young girl was walking past my office door not long ago, engaged in conversation with a boy of her own age. She was a very pretty girl, well dressed and carefully groomed, and her external appearance gave one the impression of her having come from a home of comfort if not of refinement. She was talking about an examination which she had just taken in which, to use her own words, she had had a "h—l-of-a-time." There were other descriptive phrases couched in words which are best not written down—profane words, but not spoken with any heat but rather coolly as if such expressions were the regular part of ordinary conversation, as I suspect no doubt they were with her.

"She must have had a very crude illiterate background," you say.

But you're quite mistaken. She hails from one of the most erudite centers of the state; she is a member of one of the "best families" of a rich Chicago suburb; her parents are both educated, and her own secondary school preparation was in one of the highest grade schools for girls in the country. She thinks that one could hardly be quite up to date if one did not swear. It is an indication of freedom from the shackles of convention, of independent thought, of fuller self expression. If one emphasizes one's statements with an oath. Other girls are doing it—prominent ones, too—and she is herself a campus leader. She is president of something or other; she must set a forceful example. She does not realize how cheap and common and vulgar she is, what a low estimate she puts upon her own character—an estimate which those who know her only casually are sure to accept. It would not be so bad if it were only girls, but the men are worse, perhaps.

"Do all young fellows swear these days?" a young boy asked me not long ago.

"I was entertained at dinner by a group of young men only a few nights ago," he went on. "They said grace at table, and then after the meal was over, they swore like pirates."

Well, does every one swear these days?

"Where did you learn to be so profane?" I asked a senior in college not long ago.

"Oh at home, I suppose," she replied. "Father swears, mother does, too. I guess I just picked it up."

And what a disgustingly vulgar habit it is, for even a pirate!

Use Ultra Violet Rays in Crime Prevention

New York.—Science's latest contribution to law enforcement agencies was discussed today, following a demonstration of a new device for burglar protection which sets off an alarm as soon as an invisible beam of ultra violet rays is interrupted or disturbed by an intervening body.

The rays may be used to asphyxiate any intruder with a barrage of tear gas or set off silent alarms.

Another demonstration showed how the photo-electric cell or "electric eye" may be used. Persons entering a room may be counted automatically as they cross a beam of light thrown across a doorway, the shadow of a passing body causing the "electric eye" to communicate with a counting machine.

Old-Fashioned Girls

Chicago.—You can always find a few "good old-fashioned" girls but out at the Foreman junior high school there is a class of 200 of them. They are enrolled in the artcraft class which teaches them how to make and preserve homes.

MARVEL ON SKIIS

A closeup of Harold Soerensen of the Norsemen Ski club of New York, who won the New York state ski-jumping championship, when he leaped 148.28 feet and displayed perfect form. Soerensen scored a total of 229.8 points to take the championship from his teammate, Carl Stenseth.

DIPPING INTO SCIENCE

Speed of Blood

About 30 seconds is required for a drop of blood to pass through the body, and all the blood in the body passes through the heart every two or three minutes. Arteries carry the blood from the heart, while the veins carry it back. The system might be likened to a pipe line.

The Kiss

"But, dear, should you kiss a young man with whom you are only slightly acquainted?"

"Well, he gave me a big evening, ma. And after he had kissed $40 good-by, it seemed ridiculous for me to be so fussy."

Science Triumphs

Man doff--What is the most outstanding contribution that chemistry has given to the world?

Upandown—Blonds.

A CONSTANT FLOW

Biggs—"She reminds you of a beautiful, swift stream emptying into the sea?" Jiggs—"Yes; there's a constant flow at the mouth."

Noticeably So

The Bird Lover—Yours must be a sad lot, chained to your perch, a life prisoner.

The Parrot—Oh, I manage to keep a stiff upper lip.

Good Portraiture

Reggy—She is the picture of health.

Jane—Yes; remarkably well painted.

Such Is Love

Well-known Writer—How are you getting along with the novel you said you were writing?

The Authoress—It's just terrible! I'm so much in love with the hero that I just can't bear to marry him off to the heroine.

Dramatic Art

"Did you enjoy the theater yesterday, Mrs. Meier?"

"Yes, some of the dresses were wonderful."

WOULD ACCEPT

He (fumbling in pocket)--"Will you accept a mint if I offer it, Miss Jones?" She—"Oh, this is so sudden Mr. Smith! Are you really worth all that?"

One More

Guest—Only once in history has the personality of a great singer inspired a great chef in the naming of a masterpiece—when we got the peche Melba.

Flapper—Oh, but I'm sure you're wrong there. What about the oyster Patti?—Humorist.

Exciting Tale of Love, Adventure

Romantic Sweethearts of "The Virginian" Score Hit In Newest Picture

Gary Cooper, recently seen and heard in the title role of "The Virginian," is doing his gallantries again Sunday and Monday at the Sequoia Theatre in a thrilling play, "Only the Brave." For many a feminine heart the foregoing statement, brief as it is, will no doubt be sufficient recommendation to this newest offering.

But in case there are any doubters, it must be added that "Only the Brave" shows Cooper to a better advantage, far better, than his previously satisfactory best.

There is something about this tall, manly Montana youth that seems to mark him as the most perfect American type. He is virile and gallant, but yet not given to thunderous outpourings of unseemly emotion. His quiet courage inspires hero-worship in the hearts of all who behold him and hear him in his fasterful work upon the talking screen.

Paramount chose wisely when it selected Mary Brian as the sweetheart of Gary Cooper in this picture. Their tremendous success as the lovers in "The Virginian" found great favor with film fans everywhere.

"Only the Brave" is from an original story by Keene Thompson. It deals with the crinoline days when Grant and Lee were saying it with cannon and troops. Gary Cooper is a captain of cavalry on the Union side who, embittered because his sweetheart has jilted him, volunteers for spy duty. Accordingly he is sent behind the Southern lines with a packet of false dispatches. His plan is to be arrested and to have the false dispatches discovered by the enemy who will then be misled into a fatal movement of troops.

But he meets Mary Brian and the plot then becomes a series of adventures in which Love and Duty fight for eminence. The ending is a happy one.

STOLEN CAR FOUND

Officers Fleishman and Mengels, while making their rounds Wednesday night, found a car deserted on the Highway near Finger avenue. A checkup of the ownership of the car showed that it belonged to A. H. Goldstone, 1161 Folsom street, San Francisco. The car had been stolen in San Francisco earlier in the day.

Redistricting

(Continued from Page One)

board of supervisors a two-third vote is required. As the change would inevitably mean the loss of one supervisors to the coastside, and as there are only five members on the board, with two from the district which would be adversely affected, a sufficient majority is quite unlikely.

In September, 1927, an action of mandamus was brought in the superior court here by Frederick Peterson of Burlingame to comple the board to redistrict the county. T his was heard before Judge J. R. Welch of Santa Clara county.

District Attorney Franklin Swart filed a demurrer to the complaint, and this demurrer was sustained by Judge Welch, he denying the petition. Peterson's attorneys later carried the case to the supreme court on appeal, but the judgment of the Santa Clara judge was sustained by the higher court.

Miss Gertrude Scheld, whose marriage to Mr. Donald Kirtland will take place this summer, was honored at a bridge party and surprise miscellaneous shower given by Miss Katherine Belcher and Miss Ruth Brown at the home of Mrs. Cecelia H. Graves on Edgewood Road Wednesday evening. Following several hours of bridge the guests were invited into the dining room, where refreshments were served. The color scheme was in pink and green and the center piece was a huge paper flower in pink. Fastened to the flower by wires were small concealed tags, directing the guest of honor where to hunt for the gifts.

High scores in bridge were made by Miss Marie Pauline O'Connell and Miss June Ray and the consolation was awarded Miss Margaret Mathew.

The guests included the Misses Gertrude Scheld, Margaret Cullen, Dolores Lyons, Margaret Mathews, Claire Foley, Marie Pauline O'Connell, Mary Belle McPherson, Clara Woody, June Rossland, June Gray, Adelaide Butts, Cora Clute and the Mesdames Cecelia H. Graves, Milton Johnson, Carroll D. Hall, Charles Rockwell and James Roland Hedge.

SNOW HELD TO ANSWER ON BURGLARY CHARGE

Richard Snow, 22-year-old San Francisco youth, was held to answer to the superior court by Justice of the Peace Edward I. McAuliffe yesterday on a charge of first degree burglary. His bail was fixed at $15,000 cash or $30,000 bond.

Snow was arrested on the night of March 12 by Officers Henry Mengel and Sylvester Douglass after a struggle during which Snow pulled a gun and tried to kill Mengel. The loot found in the car and consisting largely of jewelry, Snow confessed he had just stolen from the home of Simpson Reinhard at 721 Broadway.

Snow, according to his own admissions, is responsible for a number of other robberies in this vicinity during the past several months, among them being the looting of the Messner store at Belmont two weeks ago.

Large Crowd Attends St. Patrick's Card Party

A large crowd attended the St. Patrick's card party given by Gen. Geo. S. Evans Relief Corps in the Foresters Hall Monday night. Mrs. Miles Sharkey was chairman of the committee in charge of the successful affair. The following are the names of the prize winners for high scores:

Mrs. Grace L. Cooper, P. H. Lange, Henry Gilroy, R. B. Strickland, M. C. Lauridsen, Miss Lorraine Dickey, Mrs. F. Smith, John Howe, Bessie Robinson, Mrs. Hubell, C. B. O'Day, Eileen Adams, A. W. Tate, Mrs. P. Benson, E. A. Rose, Mrs. Edna Swift J. C. Buck, Mrs. George Harris, E. O. McGirk, Mrs. J. Layng, Mrs. C. Collins, H. Hauch, Mrs. M. B. Lawson, J. Clarken, J. E. Taylor, Thos. Tuite, Mrs. Ottsman, Mrs. E. Gorse, Mrs. George Richards, Mrs. R. F. Russell, W. B. Sunke, Mrs. Grady, Mrs. R. W. Riley, Mrs. A. H. Reith, Albert Bullivant Mary Ryan and Mr. Hierey.

Mrs. Max Bartell entertained the members of her bridge club at the Benj. Franklin Hotel in San Mateo Friday. Mrs. George A. Gunther was awarded first prize for high score and Mrs. Otis Van Dyne the consolation. Mrs. Bartell's guests included Mrs. Henry A. Beeger, Mrs. L. Mrs. Ernest Werder, Mrs. L. E. Wer- E. Bostwick, Mrs. John W. Poole, der, Mrs. George A. Gunther and Mrs. Otis Van Dyné.

Mrs. Jay T. Cooper president of the San Mateo County Federation of Women's Clubs, was the guest of honor at the meeting of the Redwood City Woman's Club, held at the clubhouse, yesterday afternoon. Mrs. Cooper is a resident of Menlo Park. An interesting feature of the meeting was a one-act play "Two Tables of Bridge," produced by the dramatic section of the club, under the directions of Mrs. Bess Balcomb.

Clubhouse Wrecked By Gay Party Monday

The Belle Monti clubhouse was the scene of a party which it is stated was "wild." As a result damage to the extent of several hundred dollars was done to the clubhouse. Acting upon word received from James Harnett, manager of the club, Undersheriff Edward Farrell went to the place to find it in a state of desolation.

It is believed that a party of six or seven persons entered the clubhouse sometime Monday night. The furniture of the place had been broken and used as fuel in the fireplace practically every window in the building had been broken and numerous bottles left behind testified to the conviviality of the gathering.

Sunday Services At First Congregational Church

The Sunday services at the First Congregational Church, Jefferson avenue and Webster street, C. H. Stevens minister, will be as follows:

Sunday morning at 10:45 the minister will preach on "The Possibility of Development." You will find this a helpful service for yourself and friends.

Anthem—"Lead Me My Saviour" by Carrington.

Duet—"Thy Father's Voice Is Calling" by Barley—Mr. and Mrs. Ralph Dodge.

Sunday School 9:45.

Easter will soon be here, classes for all ages.

The young people meet at 6:30. Special speaker. Refreshments will be served by the young men.

Blessed are the Merciful for they shall obtain mercy.—Matt. 5:7.

MR. LOUIS APPY — Teacher of Piano, Cello, Violin. Teaches at the pupil's home. For appointment phone Redwood 954. 2-14-4t.

EPILEPSY CURABLE? — Detroit lady finds complete relief for husband. Specialists home and abroad failed. Nothing to sell. All letters answered. Mrs Geo. Dempster, Apt. D-63, 6900 LaFayette Blvd., West, Detroit, Mich. March 7 and 14, 1930.

RELIABLE PARTY WANTED—To handle Watkins Products in Redwood City. Customers established. Excellent opportunity for right man. Earning over $40 weekly. Write L. B. Kyllingstad, 4512 Hollis Street, Oakland, California.
